

Allied Leaders to Confer on Further Pressure on Berlin

Lloyd George Tells Commons Teutons In Default on Reparations, Disarmament and Trial of Germans For Offences During War.

London, April 18.—The German Government, said Premier Lloyd George in the House of Commons to-day, is still in default with regard to reparations and the trial of persons accused of offences against the laws of war, and disarmament.

The Germans, continued the Prime Minister, had not thus far shown any inclination to advance practical proposals for carrying out the Treaty of Versailles in these respects. Therefore it was imperative for the Allies to confer with regard to the further steps which might be necessary to enforce compliance with the treaty.

Mr. Lloyd George's statement was in answer to a question by Commander Kenworthy as to whether the Prime Minister's attention had been called to the pronouncement of Premier Briand of France, that France as the questioner construed it, intended to use force against Germany after May 1, and whether British troops would be involved in a new demonstration.

Reports Denied.

Paris, April 18.—Reports were current in Lille to-day that the military classes of 1918 and 1919 had been summoned to the colors for a period of preliminary training before being called upon to aid in the possible enforcement of the Allied reparations decision against Germany. But these reports were declared by the Ministry of War to be baseless. No call for mobilization of these classes for any reason whatsoever had been sent out, the Ministry asserted.

The National Veterans' Union held a meeting yesterday at which was passed a resolution exhorting young men who might be called to the colors to "respond as valiantly as did their elders in 1914."

Speculative.

London, April 18.—Reports of drastic action contemplated by the Allies against Germany, to be taken May 1, were characterized to-day by official circles here as highly speculative and hypothetical.

These reports, it was pointed out, were based on the assumption that Germany neither intended to pay adequate reparations nor to offer a new and acceptable solution for the reparations problem, and British officials are declining as yet to endorse any such assumption.

However, should Germany not offer a solution before May 1, the British, it is stated, would consider that she was deliberately blocking the treaty and the British would act wholeheartedly with France in any action necessary to enforce the pact.

Belgium.

Brussels, April 18.—The declaration that Belgium's financial and economic future was entirely dominated by the question of German reparations was made by Premier Wiert in an address here Saturday. He asserted that the problem of Belgium's restoration was incapable of solution unless Germany paid the sums levied against her.

The Socialist Minister Destrées also declared that Belgium was threatened with bankruptcy unless Germany paid up.

COMPANY SUING

UNION FOR \$300,000

Beaver Board Concern Asks For Damages

St. Catharines, Ont., April 18.—Action for \$300,000 damages has been begun by the Beaver Board Company, which has strikes on its hands at its plants in Thorold, Ont., and Tonawanda, N. Y., against the International Papermakers' Union. The company claims damages for alleged interference with non-union employees at the Tonawanda plant, which was reopened three months ago; for causing the company a bill of expense in conveying non-union employees between their homes and the plant, and for preventing the company from obtaining as many men as are required to run the mill.

The strike at Thorold is not mentioned in connection with the legal proceedings.

TRIES TO HOLD

TROOPS AS ARMY

Wrangel, So. Russian Leader, Has "Government"

Paris, April 18.—General Wrangel, former head of the South Russian Government, has established a so-called Russian Government at Constantinople, according to a semi-official French announcement. He is attempting, the statement says, to maintain his Crimean troops as an army, opposing every effort of the French military authorities to repatriate them or send them to Brazil or elsewhere so that they might earn their own living.

MAY PRACTICE LAW.

Albany, N. Y., April 18.—Former President Woodrow Wilson has been given the right to practice law in New York state by a measure enacted by the legislature.

DISTILLERS IN THE OLD COUNTRY ARE HAMPERING QUEBEC

Montreal, April 18.—The intention of the Provincial Government of Quebec to take over the operation, wholesale and retail of the spirituous liquor business in the province has been temporarily blocked by a decision of the great distilleries in Scotland and other parts of Europe not to deal directly with the Liquor Commission. The distilleries are insisting that they can only do business with their agents in Montreal and Quebec. These are the big wholesale houses in Montreal and Quebec which the Government Commission had hoped to be able to displace.

Pupils Here Languid and Sick Because of Bad Food, Not Poverty

Better feeding of children in the public and industrial schools of British Columbia was urged on the Hon. J. D. MacLean, Minister of Education, and the Hon. J. W. de B. Farris, Attorney-General, by members of the University Women's Clubs of Victoria, Vancouver and New Westminster this afternoon.

As a result of the action of the University women it is planned to reduce the prevalence of bad and injurious feeding in this Province by putting food value cards into the hands of every school pupil.

Mrs. J. W. de B. Farris, president of the Victoria University Women's Club, who headed and introduced the delegation, explained that the clubs, composed largely of teachers and mothers, have viewed with alarm statements by responsible officials that school children of the Province are in a large percentage of cases underweight.

As a result of this the University women decided to co-operate in aiding the Government to take simple and inexpensive steps to counteract this danger.

Not Caused By Poverty.

"We feel that this underfeeding is not due to poverty or high food prices so much as to ignorance of food values on the part of mothers," said Mrs. Farris.

"We are therefore asking the Department of Education and the Attorney-General to put in the hands of every child in school a small card containing on one side a table showing what children from 6 to 18 years ought to eat, and on the other the proper foods with their quantities measured in terms of the simplest household utensils, such as spoons, saucers and cups."

Mrs. Farris said that any further steps such as talks to mothers by trained dietitians or special clinics for mothers with universal approval, but for the present the clubs would be satisfied with the cards and asked that they be prepared in time for the opening of school in September.

To Prevent Tuberculosis.

Dr. Helen Ryan said that as a medical woman she had no apology to make for asking this help from the Government. No general course in chemistry, biology or college prepared women for this phase of cooking, and as men had to call on efficiency experts in their business, she felt it was not out of place for women to ask the state to help them in their profession of motherhood.

Mrs. Henry Esmon Young, speaking as a mother, urged that the Government grant this help as a preventive measure against tuberculosis and other diseases. She felt that in taking up this matter the University women were only falling in line with the work of women in the whole of America to keep people well, instead of being a mere luxury to take care of them after the harm was done.

Languid Pupils No Good.

Miss Edna Henry, as a High School teacher, spoke of the intimate relation of successful scholastic work to the healthy body. She declared it was impossible to get results from pupils tired or languid from improper feeding, no matter how well equipped chemists, biologists or college prepared women for this phase of cooking, and as men had to call on efficiency experts in their business, she felt it was not out of place for women to ask the state to help them in their profession of motherhood.

Mrs. J. H. McGill, judge of the Juvenile Court, Vancouver, said that she had viewed with the greatest concern the statement of Dr. Underhill, medical health officer, that 60 per cent of the school children in Vancouver were underweight. She felt sure it was not so much a question of poverty as of ignorance.

(Concluded on page 4.)

No Liquor Board Jobs For Men Who Imbibe

Men who have an inclination to imbibe liquor to excess will stand no chance of getting jobs under the Government Liquor Board.

This was given out to-day as it was decided that the Board could in no way take any chances with men who might in a moment of carelessness take a drink. It was pointed out that the danger is too great, as the Board is determined to conduct the Government's liquor business in only the most efficient way. There is a determination to take no chances with liquor disappearing, being tampered with or a little bit being taken out of bottles and the place filled with water, as the Board intends to sell nothing but pure liquor of the fullest strength.

2,500 Seek Jobs.

The fact that the Board has taken this stand means that a large proportion of the applicants for liquor jobs will be thrown out. Many of those who have sent in applications, particularly from Vancouver, have sent along proofs of their ability to resist liquor temptation. Some even present proofs of the fact that they have been teetotalers all their lives.

The total number of applications for liquor jobs passed the 2,500 mark at noon to-day. The applicants are now being classified according to their habits, and life records, so that the Board will be taking absolutely no chances in any way with those who finally give up.

SOVIET RUSSIA PROMISES TO PAY DEBT TO SWISS

Geneva, April 18.—Soviet Russia's debt to Switzerland, according to statistics of the Swiss Federal Government, amounted to 466,000 roubles, 129,000,000 Swiss francs, 6,000,000 French francs, 24,500,000 and 3,000,000 marks.

According to information here, Switzerland does not intend to open commercial relations with Russia.

This debt has been paid or guaranteed by the Swiss Government, and has been given for its payment.

REMAINS OF LATE EX-KAISERIN TAKEN TO POTSDAM

Doorn, April 18.—The funeral train bearing the remains of the late former Kaiserin Augusta Victoria of Germany to Potsdam left the little station at Maarn, three miles from here, at 7.35 o'clock this morning.

Wilhelm, Hohenzollern, former Kaiser, did not go to Maarn to see the train depart, but remained at the house of Doorn in company with his brother, Prince Henry of Prussia. Princess Louise, daughter of the late ex-Kaiserin, and General von Gontard, Chief of the Household, were the only ones present to see the funeral car leave.

HEAVIER LIQUOR FINES IN ALBERTA

Edmonton, April 18.—The long-expected amendments to the Alberta Liquor Act, now before the Legislature, provide for a general tightening up of the measure for the purpose of making it easier for the police to obtain convictions and practically double all fines for violations of the Act.

The Act will definitely place a limit on the number of prescriptions which a physician may issue in one month, this being now 100, with the physician entitled to more if he can show good and sufficient reasons to the Attorney-General that more are required. The Attorney-General is now considering a regulation limiting the number to 150 a month, on the suggestion of the Medical Association, although the Act heretofore has provided no limit.

Fines.

Heavy increases in fines are provided for, the minimum and maximum being practically doubled in most cases. Fines \$100 are increased to \$200, with a maximum of \$500 for second convictions. Jail terms will follow third convictions as formerly.

Drug stores are placed under more rigid regulations. If any person is convicted of a violation of the Act in a drug store, that store will be prohibited from handling liquor for six months thereafter, and a second conviction will carry a prohibition of one year.

Where drug stores have been placed under the ban, the owners will be prevented from starting new premises by a regulation which requires that no new drug store established in a place where another drug store already exists can handle liquor until in business for six months.

Quantities.

The quantity of liquor given each druggist will be regulated by the preceding month's sale under prescriptions, and all prescriptions issued by a vendor, unless for filling prescriptions of twelve ounces or less.

Instead of being allowed one-half gallon daily of liquor, veterinary surgeons will be restricted to one gallon a month.

J. J. JUSSERAND

BACK TO FRANCE

Paris, April 18.—Julius Jean Jusserand, French Ambassador to the United States, will be recalled as soon as Rena Viviani returns from his American mission, according to information obtained from a well-informed diplomatic source.

WOMAN KILLED.

Seattle, April 18.—Mrs. Sarah Lewis, Auburn, was fatally injured yesterday afternoon when her automobile was struck by a Northern Pacific train at Thomas, four miles north of Kent.

She died last night.

STATES RAILWAY BURDEN TOO HEAVY

Premier of Quebec Says East Suffers

Thinks the Nationalization Scheme Has Dangers

Montreal, April 18.—Annexation to the United States and the breaking of the federal pact are not results desired by anyone in Canada, yet they are able to happen when the provinces of the East find that their young sisters of the West want more than their share, according to Hon. L. A. Taschereau, Premier of Quebec.

Premier Taschereau, in uttering this warning here, was referring to the projected nationalization of railways, which he said was good for the West but was placing a burden on the East which threatened to become too heavy, and he added:

"Many people ask if this nationalization is not the first breach, and a strong breach, of the federal pact."

The Premier said he thought annexation to the United States would be fatal to the French-Canadian race.

LABOR UNREST IN PETROGRAD

Zinovieff Urges Workers to Be Patient

Stockholm, April 18.—Reports of further labor unrest in Petrograd are contained in advices reaching here. Zinovieff, the Russian revolutionary, the Governor, M. Zinovieff, has written to the newspapers in an effort to check the growth of the movement. He urges the workers to be patient, pointing to the poor economic conditions still existing in the country and the difficulties that have been met with in the army demobilization.

WORK OF RELIEF FOLLOWS STORM

Tornado Took Toll in Southern States

Memphis, Tenn., April 18.—Relief workers to-day are clearing away debris of the tornado which swept eastward from Texas Saturday, and took a toll of approximately 100 lives, injured several hundred persons and wrecked a score or more villages and farming settlements in six southern states.

The known death list stood at ninety-four, with several missing, and believed to have been killed.

Arkansas reported sixty-three dead, Texas nine, Alabama fourteen and Mississippi eight.

Clearing.

Heavy rain and a sharp drop in temperature which followed in the wake of the storm contributed to the suffering, but to-day the weather was clear and temperatures were returning to normal.

In Arkansas the relief work was being directed by Red Cross headquarters at Texarkana.

MRS. BELA KUN IS PUT OUT OF ITALY

Bologna, April 18.—The wife of Bela Kun, former Hungarian Communist Dictator, has been expelled from Italy on a charge of having promoted Communist meetings. She was sent to Tarvis, Austria.

WANT NOVEMBER

THANKSGIVING DAY

Suggestion of Veterans Before the Commons

Ottawa, April 18.—(Canadian Press).—In line with a suggestion made before the special Parliamentary Committee on Soldiers' Civil Rights, the House of Commons will select November 11 (Armistice Day) as the day for observing the late war by selecting the Monday in the week in which November 11 (Armistice Day) occurs each year as Armistice Day and that "General Thanksgiving to Almighty God be proclaimed."

Mr. Lemieux.

Dr. J. W. Edwards, member for Frontenac, will raise the question as to whether or not Hon. R. Lemieux is entitled to sit for the two seats of Malnoue and Gaspé. Dr. Edwards will move the Hon. R. Lemieux has not selected which of the two seats he will represent, the question be referred to Committee of Privileges and Elections, the committee to inquire into all matters relating to the petition for unseating Mr. Lemieux in the electoral district of Malnoue.

SENTENCE COMMUTED.

Ottawa, April 18.—(Canadian Press).—The death sentence of Joseph Remillard, who was to have been hanged at Quebec on April 22 for the murder of Lucien Morissette at Lévis, has been commuted by the Governor-General.

The older Remillard was sentenced to death while his son, who was alleged actually to have fired the shot which killed Morissette, was found guilty of manslaughter.

WOMAN MURDERED BY SINN FEINNERS

Raiders Shot Her in County Monaghan

Called Their Deed "Republican Army Execution"

Dublin, April 18.—The first murder of a woman by Sinn Feiners, called by them an "execution," has been announced. She was taken from her home in the Scotstown district of Monaghan yesterday, and shot and killed on the bank of a river.

The woman, whose name was Kitty MacCarron, belonged to the farming class. She was about forty years old, and lived with her parents, octogenarians in the mountainous part of the country. At about midnight a knock was heard at the door, and a party of masked men entered and informed the victim they had come for her.

She struggled in vain. The assassins fastened her hands behind her back and led her, pleading pitifully, down a lane about a mile to the main road, by the side of which the body was found with bullet wounds through the cheek. The customary sign of Sinn Fein "executions," a card on the body, was inscribed: "Spies and informers, beware." Tried, convicted and executed by the Irish Republican Army.

Refused Aid.

Neighbors refused aid in the removal of the body, such is the terror inspired in Monaghan by the recent series of terrible deeds which have earned for the county the reputation of being the worst in Ulster.

The police, though accustomed to tragic events, were deeply moved at the sight of the poor old mother, in her second childhood, entering the room, where her daughter's body lay and staring about in bewilderment, unable to realize what had happened.

A Mistake.

Limerick, April 18.—Two members of the Crown forces were killed and one was wounded in a hotel at Castle Connell, County Limerick, last night when soldiers arriving at the hotel in lorries mistook some of their comrades in civilian clothing, already at the hotel, for Sinn Fein rebels.

Dennis O'Donovan, proprietor of the hotel, also was shot and killed. One report says he was taken into the hotel yard and executed on suspicion of harboring rebels.

More Deaths.

London, April 18.—A dispatch from Dublin says: Nearly 1,000 emigrants had embarked at Queenstown Saturday and Sunday, bound for the United States.

Several attacks on the constabulary were reported Sunday. Two constables were dangerously wounded at Ballylin, where armed forces went through the streets firing bombs and shooting indiscriminately.

A bomb attack was made on a motor car containing auxiliaries Saturday night on the North Quay, Dublin. The auxiliaries returned the fire, and three members of the attacking party were seen to fall.

In an attack on a public house at Ennis Saturday night, a soldier was shot and killed and a constable and two women were wounded.

(Concluded on page 4.)

LIQUOR VOTE IN

ONTARIO TO-DAY

People Are Deciding Question of Importation

Toronto, April 18.—(Canadian Press).—Almost every point in Ontario came the reports of "fair and mild" weather to-day for the referendum on importation of liquor. In the country districts in the southern parts of the Province the roads are sloppy.

The vote is definitely and entirely on the question of the importation of liquor into the Province. If the majority vote is "yes" the Dominion Act forbidding importation will become operative on the proclamation of the Governor-General and the provincial measure, known as the "Sandy Bill," will also become law. The sale of intoxicating liquor within the Province is already illegal, so that the effect of to-day's balloting will be for a "bone dry Ontario," or with a "no" vote for conditions of importation as they are at present.

It is estimated that the eighteen days in the cost of fuel, with the serious reaction on various industrial interests, recovery from which is daily growing.

Workers' Attitude.

There are no means of determining with any definiteness the attitude of the rank and file of the nation's organized workers as to last Friday's "Triple Alliance" split. The reports from various parts of the country show that the feeling follows closely the leanings long associated with them.

In some parts of Wales and Scotland, noted as hotbeds of labor dissatisfaction, the railwaymen and transport workers are denouncing what is termed the "treason" of their executives in calling off the strike set for Friday night in this connection it is noted that at a meeting in Cardiff yesterday a thousand members of the National Union of Railwaymen passed a resolution in favor of a national railroad strike being called next Friday if the miners' demands were not conceded.

Without Comment.

In other centres, where the moderate dominate, the "Triple Alliance" decision was accepted without comment.

There is also a sprinkling of those who have always doubted the potentiality of the "Triple Alliance," and are now deriding the organization as the "crippled alliance."

No Racing.

London, April 18.—(Canadian Associated Press).—Racing by a Government order, has been abandoned until further notice. This decision was reached on account of the labor troubles.

(Concluded on page 4.)

Britishers Husband Coal While Strike of Miners Goes on

Little Probability of Advances For Settlement By Strikers Until Their Representatives Hold Conference In London Next Friday.

London, April 18.—Governmental authorities were anxious to-day to re-open negotiations between the striking coal miners and the owners of collieries throughout the United Kingdom with the hope of bringing about a permanent settlement of the wage question, which caused the strike of miners on April 1 and came near involving Great Britain last week in an epochal industrial crisis.

There seemed little probability, however, that members of the Miners' Federation of Great Britain would take any steps to meet Government officials and the mine owners before next Friday, when representatives of the striking miners will confer on the situation in this city. In the meantime Great Britain is facing a serious coal shortage and every effort is being made to eke out the present stocks until some adjustment of the situation can be made. Beginning to-day, train services were curtailed and steps taken to bring to the people a realization that the coal shortage was really serious.

No Bunkering.

A mass meeting of the members of the Coal Porters' Union was held in Conning, a suburb of London, yesterday, and a resolution was adopted stating that in view of the importance of United States coal, the coal union would refuse from tomorrow to bunker any German coal, and also would decline to tranship coal. The first decision was taken because since the beginning of the coal strike vessels have been bunkered only for outward voyages taking in foreign coal for their return trips.

The meeting adopted a resolution of sympathy for the miners, but it is noteworthy in this connection that the coal porters belong to the National Union of Dock Laborers, the secretary of which, James Scobie, a member of Parliament, ridiculed an interview yesterday talk about the miners having been betrayed. He declared the dock laborers had been ready to support the miners but that after the Government had accepted the suggestions of Frank Hodges, secretary of the miners' union, and the miners' delegates later rejected the suggestion, they had no basis upon which the dock laborers could continue their support.

A Programme.

A meeting of the Parliamentary Labor Party committee and the Trades Union Congress will be held Wednesday and Thursday next at that gathering some programme may be formulated for presentation at next Friday's conference of miners.

The Parliamentary Labor Committee has in the past been serviceable as an intermediary in labor disputes, its only failure to function having occurred during the crisis last week.

The failure, however, is understood to have resulted from the reluctance of some of the most influential members of the committee to do anything which might identify the Parliamentary arm of the labor movement with the general strike policy.

Contributions.

Meanwhile The Daily Herald is furthering a campaign to provide the miners with financial assistance through voluntary contributions from all union men of one shilling a week to enable the miners to carry on what The Herald insists is "their fight for the whole of trade unionism."

Three weeks without wages have left the mine union treasures depleted, and the severe weather prevailing is bringing distress to the homes of thousands of miners and those in other employments who are idle through the coal tieup.

Alarm.

The slowing down of many industries because of the coal scarcity is causing increasing alarm, with the numbers of men idling increasing at the labor exchanges, steadily mounting.

It is estimated that the eighteen days in the cost of fuel, with the serious reaction on various industrial interests, recovery from which is daily growing.

Workers' Attitude.

There are no means of determining with any definiteness the attitude of the rank and file of the nation's organized workers as to last Friday's "Triple Alliance" split. The reports from various parts of the country show that the feeling follows closely the leanings long associated with them.

In some parts of Wales and Scotland, noted as hotbeds of labor dissatisfaction, the railwaymen and transport workers are denouncing what is termed the "treason" of their executives in calling off the strike set for Friday night in this connection it is noted that at a meeting in Cardiff yesterday a thousand members of the National Union of Railwaymen passed a resolution in favor of a national railroad strike being called next Friday if the miners' demands were not conceded.

Without Comment.

In other centres, where the moderate dominate, the "Triple Alliance" decision was accepted without comment.

There is also a sprinkling of those who have always doubted the potentiality of the "Triple Alliance," and are now deriding the organization as the "crippled alliance."

No Racing.

London, April 18.—(Canadian Associated Press).—Racing by a Government order, has been abandoned until further notice. This decision was reached on account of the labor troubles.

JAIL ALL RIGHT, INSPECTOR FINDS

Sees No Ground for "Sanitary Outrage" Charge

Jail conditions in Victoria, contrary to the charges of Police Commissioner Dr. Ernest Hall, are perfectly satisfactory from a sanitary standpoint, according to a report which City Building Inspector Barf has laid before Mayor Porter, Chairman of the City Police Commission.

Following the charges made by Dr. Ernest Hall that jail was a "sanitary outrage," Mr. Barf, acting on the instructions of the Police Commission, made an investigation of the institution. In his report to the commission he declares that everything at the jail is in a satisfactory condition.

It will be recalled that Dr. Hall complained about the toilets which

NORTHERN CANADA

ATTRACTING MEN

Search for More Oil and Gold

Edmonton, April 18.—A new era is dawning, and before long Canadians will recognize the fact that the Northland is to Canada what the Indies were to the Spaniards, in the opinion of Colonel J. K. Cornwall, head of a trading company. It is not a hothouse country for dainty luxury-loving people, states Col. Cornwall, but a territory in which a red-blooded white man will revel. North of the McMurray and Peace Rivers tenderfoot are not held in much esteem, but the man who wants to go in and is prepared to abide by the manners and customs of the country can get through and transact his business.

Gold.

There is going to be much activity in the North during the coming season and much more information regarding the valuable gold deposits which are known to exist in the neighborhood of Great Slave Lake and elsewhere should be available during the coming year. Many of the men from the placer mine-country of the Yukon are going in for testing quartz more than for oil seeking. Colonel Cornwall asserts. Quite a number of the gold miners and others who are going in to stake will remain for the winter, and the fur business as a consequence is expected to show an upward trend. Hitherto there have been no white trappers in the Far North and the Indians and half-breeds have never turned in the quota of furs which might be expected of them had they but applied a little more "hustle" to their trap lines.

CANADIAN LABOR

REPORT FOR MARCH

Twenty-six Strikes During the Month

Ottawa, April 18.—The April number of The Labor Gazette states that unemployment among trade unions in Canada at the beginning of March was 16.12 per cent. of the total membership, as compared with 13.07 at the beginning of February and 14.33 at the beginning of March, 1920. Reports were received from 5,000 firms. The time loss due to industrial action was greater during March than during February, and also greater than during March, 1920. There were in existence during the month twenty-six strikes, involving about 4,252 work people and resulting in a time loss of \$2,328 working days. At the end of the month there were on record fourteen strikes involving 1,735 work people.

LIVE CATTLE ARE SHIPPED TO ENGLAND FROM DOMINION

London, April 18.—(Canadian Associated Press)—The Canadian fat cattle trade to Manchester was resumed last week after a lapse of ten years. Within the next six weeks five steamships carrying Canadian or American cattle will reach Manchester. The animals will be slaughtered on the wharf as they are landed. Years ago the overseas live cattle trade to Manchester was of considerable proportions.

SASKATCHEWAN TOWN HAD FIRE

Regina, April 18.—A disastrous fire visited the town of Hutton, Saturday, destroying property valued at more than \$60,000. The Elite Cafe, Cole's drug store, Steinberg's general store and Debrock's livery stable were reduced to ashes. The origin of the fire is unknown. A light wind at the time quickly fanned the flames. The control of the volunteer fire brigade.

RUSSIA "GIGANTIC ECONOMIC VACUUM"

Secretary Hughes States
Washington's Attitude

Washington, April 18.—Secretary Hughes, writing to Samuel Gompers, president of the American Federation of Labor, who asked for a statement of "the facts" regarding Russia, indicates definitely that there is no prospect of a resumption of relations with the United States while the Soviet political and economic system remains.

The letter replies to various statements characterized as propaganda which contend resumption of relations with the Soviets would open a great current of trade of advantage to the United States, and that large shipments of Russian gold have been made to other countries in payment for goods.

Soviet Russia, the Secretary declares, is "gigantic economic vacuum," and he states that "no evidence exists that the unfortunate situation is likely to be alleviated so long as the present system continues."

At Minimum.
Taking up the charge that the scarcity of goods in Russia is due to the blockade removed last July 8 and the statement that the demand for manufactured goods in Russia is so great, and the Soviets' purchasing power so vast that it is almost impossible to determine the capacity of the Russian market to take imports, Secretary Hughes wrote:

"Though there is almost no limit to the commodities needed by Russia, the purchasing power of that country is at a minimum, and the demand must remain unsatisfied. . . . The attitude and action of the authorities of Russia have tended to undermine its political and economic relations with other countries. The Russian people are unable to obtain credit and are compelled to be deprived of commodities immediately necessary. . . . It should not be overlooked that there has been a steady degeneration in even those industries in Soviet Russia not dependent on imports and in which there has been no shortage of labor. Restrictions on direct trade with Russia were removed by the United States July 3, 1920. Conclusion of treaties of peace with the Baltic States enabled Russia to enter upon trade with Europe and the United States. Both American and European goods have been sold to Russia, but the volume of trade has been unimportant, due to the inability of Russia to pay."

Small Volume.

"It is true agents purporting to be representatives of the so-called Bolshevik 'Commissariat' of Foreign Trade have given out statements for the purchase of goods in the United States, Europe and Asia. It is estimated perhaps \$5,000,000 worth of orders have been booked. But shipments have been made only in small volume because the Soviet agents were unable to pay cash or obtain credit."

In reality, the Secretary says, transfers of Russian gold to other countries have been small, and at the most liberal estimates the Soviets have not more than \$175,000,000 gold. Even immediate expenditure of the whole amount in the United States, he says, would have no lasting effect on American trade or industry, and it might "take away the scant hope left of a sound reorganization of the Russian system of currency and finance."

There have been since December 18, Secretary Hughes says, no restrictions on financial transactions between the United States and Russia, although there is no assurance that the Mint or the Reserve Banks will accept Russian gold.

Refuted.

"The facts" as to supplies in Russia available for export, he wrote, "completely refute" statements that if the United States recognized the Soviets, Russia immediately would export lumber, wax, hemp, fur and other commodities.

The facts, he says, show Russia does not have for export commodities which might be made the basis of immediate profitable trade with the United States, and he adds that the Russian transportation system is demoralized. He quotes an official Soviet organ to show lumber production in 1920 was one-fifth of the pre-war level. A table shows the output of eight principal exporting commodities at from twelve to fifty-eight per cent. of what was expected. "Furthermore," he points out, "before the war American trade with Russia constituted only one and three-tenths per cent. of all the foreign trade of the United States, being in the year ended June 30, 1913, \$55,000,000 for both exports and imports, while for 1920 it was \$13,000,000, and practically all of that was with territories free of Soviet domination."

Readjustments.

"It is unquestionably desirable," he wrote, "that intimate and mutually profitable commercial relations be established between the United States and Russia, and it is the sincere hope of this Government that there may be readjustments in Russia which will make it possible for that country to resume its proper place in the economic life of the world."

NO SPITE FENCES.

Albany, N. Y., April 18.—A bill designed to prevent the erection of "spite fences" is before the State Legislature. It declares that such structures are a private nuisance and may be enjoined.

Y.M.C.A. CONDEMNED BY ARCHBISHOP

By Head of Montreal Roman Catholic Diocese

Montreal, April 18.—In a pastoral address read in all Roman Catholic Churches of this city yesterday, Archbishop Bruchesi, of the Montreal arch-episcopal diocese, denounced feminine fashions, the dance "evil," and the cinematograph films and made particular reference to the Young Men's Christian Association as a special danger.

Of the latter, Archbishop Bruchesi said: "Under color of bringing light to young people, these associations turn them away from the magisterium of the church constituted by God, the torch of truth, and invite them to demagogues, and then at the narrow seat of human reason, the light which shall guide them."

This Archbishop Bruchesi asserted, leads finally to a "vague and undecided religion which has absolutely nothing in common with the religion preached by Jesus Christ."

The pastoral address declared it the duty of young people of both sexes to avoid such associations. Archbishop Bruchesi said: "Some of these styles are merely ludicrous; others, by adding indecency to wretched taste, shock the upright conscience. These semi-nude fashions are not fit for even questionable characters, yet respectable married women and young girls do not hesitate to appear at the very altar rail attired in a manner shocking to common decency."

"The dance craze" was described as "suggestive of evil," while the "moving picture film adds also its quota of corrupting influence."

BUSINESS POOR IN YUCATAN

Merida, Yucatan, April 18.—Merchants here have entered vigorous protest against the establishment of a state-wide moratorium by the Yucatan Congress. The moratorium is to last until March, 1922, and is designed to relieve the acute business conditions within the state due to the low price of henequen.

There are now more than 800,000 bales of henequen stored within the state, the market price of which is 4% cents per pound, whereas production cost is said to be between six and seven cents per pound.

CHILD KILLED.

Winnipeg, April 18.—John Egan, five years old, was killed by a street car Saturday afternoon. The motor-man is held pending the outcome of the inquest.

SHANGHAI MINT LOAN FOR TWO AND HALF MILLION DOLLARS

In order to secure a unified currency throughout China the Minister of Finance and the Director of the Currency Bureau signed on March 4, 1921 an agreement with the Shanghai Mint Loan Bankers' Group for a loan of \$2,500,000. The composition of this group, like that of the Car Loan Banking Group which recently made a loan for the purchase of new rolling stock for the Government Railway, includes all the leading Chinese banks in North and South China. Following is a summary of the most important items in the Currency Loan Agreement.

Shanghai Mint Treasury Notes will be to the value of \$2,500,000, printed by the Government and delivered to the Banking Group for sale in accordance with the regulations governing the matter published by the Ministry of Finance on March 3, 1921. The proceeds from the sale of the notes will be employed for the es-

tablishment and equipment of the Shanghai Mint.

The Government will receive \$93 for every \$100 note, and the notes will bear interest at the rate of nine per cent. per annum. The banks will underwrite the notes and will receive not more than one per cent. commission on their total par value as compensation for the selling.

There will be a monthly redemption of the principal from April, 1921 to May, 1924. This redemption amounting to \$70,000 will be paid each month to the Shanghai branches of the Bank of China and the Bank of Communications by the Chief Inspector of the Salt Administration. The interest on the loan will be secured by the Salt Surplus as well as by the property and machinery of the Mint, and all documents relating to the ownership of the Mint will remain in the custody of the Banking Group. All net profits from the Mint are to be placed on deposit at four per cent. per annum to safeguard the redemption of the notes, such redemption to be prior to any Government claims.

A man at 102 years of age is not too old to make his will. A Buffalo court ruled when a grandson of the centenarian contested the will.

URGES EX-SOLDIERS TO SAVE CANADA

Speaker in Vancouver Scores Meighen Government

Vancouver, April 18.—"Amalgamation of all returned soldiers organizations to save Canada from a Government which is riding it to ruin should be the aim of every returned soldier," said Comrade Clare A. White, former first vice-president of the G. A. U. V., in an address at a mass meeting of veterans here Sunday. The meeting was under the auspices of the G. A. U. V. and amalgamation of returned men's associations throughout Canada was the chief topic.

MANIFESTO WAS ISSUED BY GONZALES

Toronto, April 18.—The report received from Mexico City that General Pablo Gonzalez, former Provisional President of Mexico, had crossed from the United States into Mexico on Friday, leading an armed revolt, was not surprising to an eminent Toronto citizen who has close Mexican affiliations. He confided to the Canadian Press the plan of the revolt, which he had received from the revolutionary junta, whose programme is set forth in a document of some thousand words entitled "Plan of National Reconstruction."

The document first recites at considerable length the alleged misdeeds of the Obregon Government, referring to the murder of ex-President Carranza and fraudulent elections, whereby Huerta became Provisional President and Obregon succeeded him. It contrasted this with the public-spirited sacrifices of Gonzalez, who "withdrew from the election after handling superbly" the interregnum after Carranza's death, and affirms that "Obregon, once in office, instead of attending to the reconstruction of the nation, feebly permitted all kinds of injustices and defending thieves, mafiosos and Bolshevists. The document goes on as follows:

"Whereas there are two or three Legislatures and as many Governments in as many states contending for power, and Obregon cannot, or will not, reduce them to order, and 'Whereas, the powers of the Government are corrupt and the country, because of these acts, is likely to lose its autonomy and the only cure is force, and

"Whereas the salvation of his country is every citizen's first duty, all sane patriots must, therefore, unite to restore the national order, broken since Carranza's assassination, and to bring about national reconstruction."

TO BARCELONA.

San Francisco, April 18.—A. Carrasco Ross, British Consul-General in San Francisco since 1911, has been transferred to the Consulate-General in Barcelona, Spain, and will leave for his new post May 7. It was announced to-day by consular officials. Before coming here he was in the consular service in Buenos Ayres.

1 Pill a Laxative, 2 Pills a Cathartic, 3 Pills a Purgative.

This is the Way Milburn's Laxa-Liver Pills Work.

You will never use any of the old gripping, nauseating, sickening, purging pills, containing as they do calomel and other drastic mineral ingredients, once you use Milburn's Laxa-Liver, a pill that is purely vegetable.

Owing to the great care used in procuring the highest grade of drugs from which they are manufactured, they are as near perfect as it is possible to get a laxative remedy. They work gently and effectively, without a gripe or pain. If you are troubled with constipation, biliousness; driven to distraction with sick headaches, if your tongue is coated, your breath bad, your complexion muddy, your eyes yellow, have floating specks before the eyes, jaundice, itching, bleeding or protruding piles, stir up your sluggish liver with a few doses of Milburn's Laxa-Liver Pills.

Mrs. Roy Mackie, Orillia, Ont., writes:—"I desire to express my thanks for the relief I have had by using Milburn's Laxa-Liver Pills. I had been suffering, for some time from constipation and bad headaches. I tried all sorts of cures, which did me no good, until I was advised to try your pills. I got great relief after taking only a few doses."

Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SAYS HE CAME FROM SCOTLAND

Some Alleged Man in Ontario Ambrose Small

Kington, Ont., April 18.—The man who says he is George Cox, of Aberdeenshire, Scotland, but whom some people insist he Ambrose Small, the missing Toronto theatrical magnate, will appear in police court here tomorrow.

When arraigned on a charge of vagrancy on Saturday he was remanded. Cox says that up to six weeks ago he was working in Western Canada. On his right arm is a tattooed ring and a cross and in appearance he answers the description of Mr. Small.

TEXT BOOKS FOR PAPER-MAKERS

New York, April 18.—Textbooks to be used for training paper and pulp mill employees for promotion, bearing on all processes in the manufacture of paper, have been prepared at a cost of \$30,000 and three years' labor by a joint educational committee representing Canadian and United States paper organizations. The books are said to represent the most complete work of their kind ever attempted by any industry.

Surface settlements, resulting from cautions of mines underneath Scranton, Pa., are causing alarm, 12 large business buildings being damaged.

PREMIER MEIGHEN HEARD IN TORONTO

Spoke of Country's Problems; Addressed Conservatives

Toronto, April 18.—Premier Meighen, addressing a gathering of Conservatives here Saturday night under the auspices of the Toronto Conservative Club, discussed the country during the present time of reconstruction, and re-adjustment including the transportation problem, the problem of the Mercantile Marine and the fiscal policy of the Government. Incidentally he said there had been "obstructive tactics by the Opposition," and he added that the Government had no trouble in passing its measures through the House, and he declared that the business of the country would be put through with all possible dispatch and without any undue waste of time.

"In a word," he said, "the Government intends that the majority in the House is going to rule, and that the rule of the majority shall prevail." "The Government," he added, "was not going to be thwarted by the tactics of opposition, no matter who might compose those oppositions."

Conditions. Referring to the present unsettled conditions in the world, Premier Meighen contrasted Canada's position favorably with that of other countries, and said that the unemployment question was worse in other countries than in the Dominion. The transportation question was one of Canada's greatest problems at the present time. The problem, he said, was all the greater because of the "tremendous errors of the country committed thirteen and twenty years ago." Beyond all question, the country had been led astray at that time, he believed. He declared that at the time of the construction of the Dominion now which were premature to the extent of thirty years, and the cost of construction, although it had been colossal, was only one of the elements under which the country was now laboring. The other element was the question of operation. The lines having been constructed, the Government must now see to it that either the commerce or the population affected. The burden of both was now upon the country.

Premier Meighen outlined the steps which had led to the Government to take control of the Grand Trunk Railway system and the present arbitration proceedings, which he said, caused disadvantages and circumstances for the operation of the railway, and declared that the Government was determined to handle the system to the best advantage.

The events leading up to the establishment of the Government Mercantile Marine were described by Premier Meighen. In this connection, he said there had been "obstructive tactics by the Opposition" in Parliament, and added that of the \$2,000,000 asked for by the Government to build the new fleet, only \$1,000,000 was voted for by members of the Opposition last year, yet the Opposition had refused to vote for it again.

Premier Meighen devoted some attention to the Government's financial policy and gave his reasons for thinking a protective policy should be maintained.

MORE FARMERS FROM UNITED STATES

Stream of Immigration Benefits the Prairies

Ottawa, April 18.—(Canadian Press) Though there was a notable reduction in the number of immigrants from the United States to the West, Canada during the fiscal year ended March 31, 1920, there was an increase in the number from the United States, according to the annual report of the Department of Immigration and Colonization. The value of stock and equipment and the wealth brought from the United States also increased. The total number of persons arriving in Western Canada from the United States was 23,300, as compared with 19,115 in 1919-20. They brought \$2,335,138 in stock effects and \$10,487,085 in cash and wealth, as compared with \$2,169,856 in stock effects and \$8,751,073 in cash and wealth during the previous year.

NECK BROKEN BUT MAN LIVES

Tilsburg, Ont., April 18.—His neck broken as a result of being thrown off a load of hay when his horses bolted on the Porge Road, Alonzo Vanciel, aged forty-five, is still alive. Mr. Vanciel can neither swallow nor talk. His legs, however, are not paralyzed. He alighted on his head, and after being found in the road was taken to a hospital, where it was discovered that two nerves which control the ability to speak and swallow had been severed. The X-ray revealed a fracture of the neck broken. He is being fed milk through a tube. His head has been placed in an iron splint.

NEW RAILWAY IN SOUTH AMERICA

Buenos Ayres, April 18.—The first rail has just been placed on the new international railway that is eventually to connect the Argentine city of Salta with the southeast of Chile, thus realigning to a certain extent the trade routes of Argentina and Chile. The Argentine section of the road is being built from Salta to Huatiquina, a place in the Andes on the frontier of Chile, while the Chilean section probably will be constructed either to Antofagasta or Mepillones. In Argentina, construction is being done by the state railways. Construction in Chile is not yet definitely provided for.

A bill introduced in New York State Legislature would regulate the quality of gasoline.

Sale of Cashmere Knit Sports Coats at \$12.75

Continues Tuesday

Continuing Tuesday this very exceptional offering of Women's Fine Quality Cashmere Knit Wool Sports Coats, in black, white and all the wanted colors; made with shawl collar, patch pockets and sash. Extraordinary value at each \$12.75

A Campaign to Protect You in Buying Your Watch

RALPH WALDO EMERSON, more than fifty years ago, speaking in one of his essays of a distinguished man, said: "He is put together like a Waltham Watch."

This remarkable tribute to Waltham greatness is the result of the genius of many men whose inventive faculties have been concentrated for nearly three-quarters of a century to make it the wonderful time-keeping device it is.

The buying of a watch is an investment in time-keeping. And time is the most valuable possession of man.

You purchase a watch for one thing—to keep correct time for you—to tell it to you with dependability at any moment of the day or night.

A good watch, therefore, must have something more than good looks—it must have good "works."

Millions of people imagine that the "hand-made" watch is the "best"—or, at any rate, that its works are superior.

Yet, at the great Expositions, the watches of the world's other leading manufacturers have invariably been defeated by Waltham.

In a series of advertisements we are going to show that there is a watch made completely by one factory organization whose time-keeping mechanism is more trustworthy than any "hand-made" watch can be.

A watch that is easily and economically repaired because its parts are standardized,—

A watch that represents origination and leadership in mechanical skill,—

A watch that has revolutionized the art of watch making and assured accurate and dependable time-keeping.

We are going to take you through the "works" of a Waltham—lay bare those hidden superiorities which have led the horological experts of the greatest nations to choose Waltham as the watch for the use of their government railroads.

Duane H. Church, famous inventor who filed the great shops at Waltham, Massachusetts, with exclusive watch-making machinery that performs miracles of accurate and delicate work which the human hand could never equal.

When you have finished reading these advertisements, which will appear regularly in this publication, you will walk up to your jeweler's counter and ask for the watch you want—because you will know how it is built and why it is superior to any other watch.

Look for these advertisements. Read them.

ONE HUNDRED PERCENT CLUB ELECTS OFFICERS

Provisional Body Chosen to Float Victoria Branch Into Being

The inaugural meeting of the Victoria Branch of the One Hundred Per Cent Club, held at the Empress Hotel on Saturday evening last, proved to be an affair of outstanding success, and the local branch of the club got away to a flying start. Strong delegations were present from Vancouver and Seattle, including the president and vice-president of the International office of the One Hundred Per Cent Club. Temporary officers were appointed to carry out the organization of the local branch, with permanent officers to be chosen at a future meeting.

F. D. Dukes, president of the International movement, rehearsed the progress made by the club in its five years of growth, it now having some nine or ten branches, all on the Pacific seaboard. The primary object of the club was to foster co-operation in business, good fellowship next, and

to promote "good times" as a last consideration. Business first, sane and intelligent intercourse with the idea of fostering business relations, stated the president were the main objects of the club.

Captain E. B. McMaster, president of the Vancouver branch, which prior to Saturday was the only one in Canada, outlined the growth of the movement there, where in eight months the membership had grown to 100 strong. Brigadier-General R. P. Clark, J. R. Clearhue, M.P.P., B. C. Nicholas, A. M. Kirk and others spoke from the Victoria viewpoint, all welcoming the idea of a branch in this city, to carry out the chain of the One Hundred Per Cent Clubs that was being forged on the Pacific seaboard, on either side of the international border.

The provisional officers elected were as follows: General, R. P. Clark; vice-president, A. M. Kirk; Major, F. B. Monk, honorary secretary; with an executive of four members, including Messrs. Alex. Peden, H. Lethaby, R. C. Hayward and H. M. Duggan. A large number of Victorians were guests at the dinner, which floated the Victoria branch of the One Hundred Per Cent Club into being.

IGNORING RUSSIA.

It looks as if the United States has made up its mind to fight shy of a trading agreement with Russia. In a communication to Mr. Gompers Mr. Hughes virtually declares that the American Government will not sanction anything of the sort as long as the Soviet Administration remains in authority. But how does the United States propose to remedy conditions in Russia and what sort of procedure does it consider necessary to prepare the field for American commerce in that part of the troubled world? It is powerless to do anything but stand at ease and watch the course of events. Does Washington suppose for one moment that the hard-headed businessman of the United States intends to twirl his thumbs and allow John Bull to make more than his share of commercial hay while the Soviet sun shines? And what has his country to gain by a policy of aloofness such as Secretary of State Hughes appears to favor? The Soviet Government may last ten years. Its gradual process of reformation does not suggest an early retirement and it cannot be defeated from without. General Smuts disposed of that theory when he told an American journalist that the best way to revive or rally all Russia to the Soviet Government was to invade the country and annex large slices of it. The sooner the rest of the world gets into this frame of mind and accepts the choice of the Russian people as something in which it may not interfere the sooner will it be possible to provide the unimaginative Slav with an understanding of international responsibility which will assist his own decision upon the form of government he requires to protect the fruits of the revolution from further Bolshevik exploitation.

A LIQUOR POINT.

Quebec's Liquor Commission will not be able to do its business direct with the distilleries on the other side of the Atlantic. It must continue to recognize the Canadian wholesaler and get its supplies from him. This is the substance of a decision reached by the interests which hold the key to the liquor situation. There is less of the unusual about a proceeding of this kind than there is of the promise of expensive liquids. The wholesaler is not in business for the benefit of his health and the Governments of the two "wet" Provinces—for it may be taken for granted that similar conditions will apply to British Columbia—intend to make a profit. All of which means that between the distiller, the wholesaler, and the Government an apparently harmless process of inflation will be indulged in at the expense of the people. At the same time if the Liquor Board in this Province will fix its prices—even at the temporary expense of the profit it desires to make—to compare a little more than favorably with those charged the private importer it should soon be able to establish its own selling monopoly and remove the need for the wholesalers' business. Beyond a certain point the distillers will not dictate. Legislation is always possible in a matter of this kind.

ANOTHER "TOUCH."

It may be taken for granted that as long as there is an Irish question the polyglot population of the United States always will contain large numbers of people ready to twist the lion's tail if

there is no accompanying strain upon the pocket. But as soon as the process becomes expensive a good deal of the sport attaching to the frequent outbursts of the propagandist will be lost to view. On that account it will be interesting to observe the manner in which the forthcoming convention of Sinn Féin sympathizers to be held in Chicago will regard the hundred million dollar "touch" which is expected to be made for the cause. In any case the Irish-American element which is continually demanding a republican form of government for Ireland may just as well drop the subject. They manufacture nothing more than embarrassment for their adopted country. The Irish question remains and will remain until the people actually in Ireland accept a British solution.

THE Y. M. C. A.

According to the latest pastoral address from the Roman Catholic Archbishop Bruchesi the Young Men's Christian Association finally leads to a "vague and undecided religion which has absolutely nothing in common with the religion preached by Jesus Christ." He goes a little further in his special reference to this magnificent institution and urges both sexes to avoid "such associations." Fortunately for the world in general—for the seed sown by the late Sir George Williams in 1844 has borne fruit in every quarter of the globe—the advice of the Montreal prelate will be tempered by that spirit of toleration which the average imperfect being associates with practical Christianity. Uncharitable messages to mankind should not be indulged in by men and women whose moral and spiritual influence might be dispensed to assist their weaker and less imaginative brothers and sisters into the paths of rectitude. It is not necessary to pay tribute to the work of the Y. M. C. A. It has reclaimed men of many lands where other agencies might have failed. It has its place in the modern world. Canada realizes its value. It has its critics as every public organization always will have. But its principal mission is to teach the world's boyhood to play the game. That, mainly, is the religion of Jesus Christ.

MAKES ITS EXIT

While the Anti-Tuberculosis Society of British Columbia takes its departure from the arena of public service with a graceful acknowledgement of assistance rendered to its administration of the King Edward Sanatorium at Tranquille it is fitting that British Columbia as a whole should be prompt in its expressions of deep gratitude for the unflagging labors which this magnificent body of willing workers has put forward in behalf of suffering humanity. For fifteen years it has kept alive a noble work. Prejudice and lack of funds have combined to limit its usefulness in behalf of many unfortunate victims of tuberculosis. And had it not been for the splendid campaign of the late Dr. Fagan and the able administration of an organization which his pioneering made possible hundreds of British Columbians would not be here to tell the tale. In relieving the Society of an obligation which it laid upon its own shoulders the Government of this Province has acquired the means to perform a greater service to humanity than is popularly believed.

IMAGINATION WANTED.

If the customs regulation which prevents access to a passenger vessel in a Canadian port after sundown is a survival of war-time precaution it may be regarded as a nuisance and quite unnecessary in its application to newspapermen. Those who represent the daily press of this country are in the habit of meeting all conditions of society at all times and there is not the slightest need to bar them from a British liner because she may chance to slip into this port ten minutes after the sun has dropped below the horizon. It is quite true that the Collector of Customs may issue a permit to meet the contingency; but he may be miles away from the scene when he is required. Only after wasting time in needless argument was a representative of the press permitted to pursue his usual quest aboard the Empress of Asia last night.

A GHASTLY OUTRAGE.

While the American Committee for Relief in Ireland is compiling its estimate of damage and destruction wrought by "British Forces" it may feel disposed to include some reference to such outrages perpetrated by the "Irish Republican Army" as that which marks the murderous assassination of Kitty McCarron. This ghastly business is on a par with that type of Bolshevik excess which followed the rise to power of Lenin and Trotsky. It will not do for the Sinn Féin to place the blame for this kind of murder upon the shoulders of the "black and tans." It is the work of a savage element which would never be satisfied with anything but an unrestricted license to do as it pleased under all circumstances.

NOTE AND COMMENT

We quite agree with the suggestion that if the City of Victoria can stage the World's Fair and the Carpenter-Dempsey fight local bank clearings would scale the financial ladder without touching many of the rungs.

Great Britain has discovered a new name for the Triple Alliance. Some genius has rechristened it the "Crippled Alliance." It has certainly not been all that it was "cracked up" to be.

It seems extraordinary that people from other lands do not recognize that this is Canada. No objection is taken to the cut of a man's coat or of the manner in which he conducts his religious worship. But the people of this country have a rooted objection to those new arrivals who plant their feet in this or any Province and commence to re-make the laws or break those already in existence. Russia is Russia, and Ireland is Ireland. For our part this is British Columbia.

"The stars incline, but do not compel."

HOROSCOPE

MONDAY, APRIL 18, 1921.
 (Copyright, 1921, by The McClure Newspaper Syndicate.)

Venus and Jupiter are in beneficent aspect according to astrology. Uranus is strongly adverse. Up-to-noun it will be wise to be cautious in all business deals, but as the day advances it will be safe to push all big enterprises. This is an unusually fortunate way for theatrical affairs, and plays should benefit from the kindly direction of the stars. Venus forecasts such increase of interest in the drama that it will be generally recognized as a great educational force and cultivated as such. Again changes in the management of American theatres are prognosticated. A great manager will and his career before the close of the summer. There is every indication of a prosperous season for business and there will be much building. Colonization schemes will be agitated at this time and there will be successful experiments in co-operation. Farmers continue subject to malign influences that affect transportation of crops more than production. A revolution in Italy toward the end of the year again is prophesied by the stars who foretell the erection of a republic. Earthquakes in the Balkans are indicated and there will be great loss of life through seismic disturbances in other parts of the world. Volcanoes long quiescent will become active and there may be serious results in islands in the Pacific Ocean as well as in various other places. The President of the United States at this time and there will be an occulting of France predicts. He is to win a peace which the people. Persons whose birthdate it is should not make changes in the coming year. Children born on this day may be the first of a new advent. These subjects of Aries are generally popular and so have the temptation to waste time in pleasure.

TO HAVE MINISTER AT WASHINGTON

Changes Made Do Not Affect Ottawa's Intention

Ottawa, April 18.—(Canadian Press)—That the office of the Canadian War Mission in Washington had been closed, but that this did not affect the Government's policy in the appointment of a Canadian Minister to the United States was stated this morning by Sir George Foster, Minister of Trade and Commerce. Another change stated this morning by Sir George was that the Canadian Publicity Office in New York, which was administered by Colonel J. A. Cooper under the Department of External Affairs, had been taken over by the Department of Trade and Commerce. Sir George would not say what the intentions were with regard to this office, but said, however, that the Department was investigating its possibilities.

A CHICAGO DEATH.

Chicago, April 18.—Marshall M. Kirkman, former president of the Chicago & Northwestern Railroad, died of apoplexy here to-day. He was seventy-nine years old.

PROVINCE GETS OLD DRILL HALL

May Turn It Into New Government Printing Department

The Provincial Government will take over the old Drill Hall on Parliament Square on Wednesday. Premier Oliver announced to-day. It has not yet been given out just what the Government will do with the building. The rumor is again current that the Drill Hall will be turned into the Government Printing Office. The present printing office of the Main Building is far too small to house the department, and a large printing annex has been built at the back. Much government work, including voters' lists, now has to go outside because the department cannot handle it.

The Hon. William Sloan, Minister of Mines, is said to be anxious to get the printing press out of the west wing of the Main Buildings so that the Department of Mines can move in there. It is pointed out that if the Department of Mines is given this whole wing it will be able to open a proper mineral museum there and have the whole department under one roof.

"We are certainly going to make use of the old Drill Hall," said Premier Oliver to-day. "What it is I am not prepared to say just now." Under an arrangement, the Provincial Government bought a new site for the Victoria Drill Hall on Bay Street, in return for which the Dominion Government agreed to turn over to the Provincial Government the old Drill Hall and its site. Although the new Drill Hall has been completed since 1914, the Dominion Government only this week has agreed to relinquish its hold on the old Drill Hall property.

WOMAN MURDERED BY SINN FEINERS

(Continued from page 1.)
 Wounded.
 P. J. Kelly, a correspondent of The New York World, was wounded in an ambush at the O'Connell bridge in the heart of the business district of Dublin, Saturday night. Kelly, with two other newspaper correspondents, had just crossed the bridge when an automobile flashed by the trio, they stepping back to avoid it. The automobile is supposed to have contained members of the Crown Forces, as it was immediately attacked with a bomb. The other correspondents dropped to the ground and escaped injury, but Kelly received a bomb splinter in the face, which tore his cheek.

Other explosions followed the first one, and there was revolver fire. "So far as is known, however, no one was injured," he said.

JAPAN MAINTAINS FIRM ATTITUDE REGARDING YAP

(Continued from page 1.)
 maintain its position it would have to "prove" not only that President Hughes had made reservations regarding Yap, but also that the Supreme Council had adopted those views.

No Treaty.
 "As no treaty has ever been concluded with the United States relating to the island of Yap, Mr. Hughes' statement that no one has ever been authorized to make a treaty on the right or interest of the United States in the island, this Government must insist that it has not lost its right of interest as it existed prior to any action of the Supreme Council or of the League of Nations and can not recognize the allocation of the island or the validity of the mandate to Japan."

Japan, not as yet replied to this communication, so that to date the correspondence consists of the two notes quoted above, another formal note sent by Acting Secretary Hughes to Mr. Hughes, by direction of President Wilson, and two memoranda with which the exchanges were initiated last November.

ALLIED LEADERS TO CONFER ON FURTHER PRESSURE ON BERLIN

(Continued from page 1.)
 Notice of abandonment of this week's racing was anticipated, but the heart is being cut out of the racing season. To-morrow the Epsom Spring meeting was to open, the programme including the Metropolitan Handicap, and on Wednesday the City and Suburban Handicap, these two races being among the most important and popular of the Spring handicaps. While no definite decision has been reached, it is now not expected that conditions will have sufficiently returned to normal by next week to permit of the holding of the Newmarket first Spring meeting.

PUPILS HERE LANGUID AND SICK BECAUSE OF BAD FOOD, NOT POVERTY

(Continued from page 1.)
 tion of money is of knowing the proper foods. Much has been done for babies by tests and information given at the Exhibition, but there was little help for mothers with children of school age. Mrs. McGill felt that particularly in the adolescent period, proper feeding would be of great assistance in combating digestive disturbances and tuberculosis. Backwardness Due to Poor Food.
 Miss Winn, school psychologist, spoke of the correlation between backwardness and improper feeding.

Macey
 The Big Stationery Store
 617-View Street-617

She dwelt "on the impossibility of making a correct diagnosis of backwardness unless all phases were considered, including every particular of everyday life."

In replying to the delegation, Hon. Dr. MacLean, expressed satisfaction that university women were taking up this matter in such earnest. It assured well, he believed, for good citizenship. So far as the request itself was concerned, he thought it most reasonable, and there would be no difficulty in granting it. In fact, it would be merely the condensed convenient form of something the Department already had in mind. Action along these lines would simply bring British Columbia in line with the best thought in this continent. As far as he was concerned, he was enthusiastically in favor of such action.

BOYS' NAVAL BRIGADE

Weekly Orders.
 Monday, 6:30 p.m.—Band practice. Tuesday, 10 a.m.—Ship's office parade. No responsibility is assumed by the Editor for the return of letters. Letters for the Editor must be submitted to the Editor.

FAIR PLAY.

To the Editor.—In your report of the Esquimalt Council proceedings, March 22, Mr. Lockley, the Reeve, said: "Mr. Jardine voted for a similar Survey Bill in 1911." Again your report of the above Council meeting, Monday, April 11, you report the Reeve as follows: "John Jardine had asked for this very survey in the year 1913." Sir, I have looked over the Journals of the Legislative Assembly for 1911 and there is no reference to any bill, such as that referred to by the majority of the Esquimalt Council. This record shows Mr. Jardine was not a member of the Legislature in 1913. Surely the Reeve might make an effort to get somewhat nearer the truth, this side-stepping the real issue, by such misleading bluff, and which proves the above statements to be untrue.

GEORGE J. COOK,
 585 Nelson St., Esquimalt, Victoria, B. C. April 16.

RAILWAY AGENTS.

To the Editor.—I have noticed with much interest lately quotations made by the Hon. F. B. Carver regarding the wages paid to railway agents, also the confirmation of Senator Turf in to-day's issue making the allegation that the overtime paid the agents has the aspect of bankrupting the country.

Let me give you a few figures on the alleged \$300 paid in overtime to some agents during 1919. Take a basic rate of \$140 per month which we will classify as a minimum monthly salary. The overtime would be time and a half on a basis of 26 days per month of \$1.04 per hour. The working hours per day is eight. This is spread to nine hours to allow for a meal hour, leaving 14 hours for overtime in the 24. Now if the agent worked the remaining 14 hours a day he would receive at the end of the month a total in overtime of \$405.60. Does it sound reasonable? No it is absurd and only tends to lead the public astray and has a tendency to disrupt the harmonious and mutual feeling between the organizations and the railways which now exists.

Arguments may be raised that the basic rate shown is a low figure, the overtime rate applied on the 14 hours would not reach the \$400 mark and I might point out that in the case of a salary of this nature there are other employees in such agencies and no overtime, as the hours would overlap to absorb any possible overtime.

I represent 40 members of our organization and for this total I can safely say that the monthly overtime would not exceed \$200, and as far as the salaries are concerned they are equitable, commensurate with the duties and responsibility of our class of employment.

N. E. LANG,
 Asst. Gen. Chairman, Order of Railway Telegraphers, E. & N. Ry. Chemainus, B. C. April 15.

SAY ALL DEPENDS ON WHEAT PRICES

If Quotations Rise Now, General Business Will Pick Up

New York, April 18.—The morning Telegraph in discussing the latest Canadian trade returns says: "Canada is rapidly getting back to 'normalcy.' Export and import figures for the year ending February 1, 1921, are most gratifying. They show a balance of trade against our neighbor on the North almost negligible when the total movements of commodities is considered. "Of course, there are invisible exports by which Canada profits, and these are perhaps sufficient to strike a balance and wipe out the adverse showing altogether. "Commercially, we are more interested in Canada than in any other country. She is one of our best customers. In the first place, and, in a large way, her commercial interests are identical with our own. The line between Canada and the United States is imaginary and the destiny of the Dominion is inseparably connected with our own. "Canada went to work after the war, in which she wrought gloriously, to her relations with some other nations; but she is not in a position to ignore Canada, any more than Canada is in a position to ignore the United States. "When T. Whitaker, of Brantford, found a muskrat on the road fatally injured, apparently by a passing motor, he mercifully killed it. Later he paid a \$5 fine to learn that muskrats may only be killed by licensed trappers. "Man: 'I say, old lady—' "Lady: 'How dare you call me an old lady?' "Man: 'Well, if you went across the road and saw a worm, would you pick it up?' "Lady: 'Certainly not.' "Man: 'Then you're no chicken.'

Straining the Eyes and Hurting the Brain

To strain the eyes continually during the waking hours is to put a severe task upon the brain and nerves, and to exhaust the entire system. If you are a sufferer from headaches and find that you cannot think as clearly and constantly as you should, the chances are that you need glasses, or, if you already wear them, DIFFERENT glasses. If you require glasses you are doing yourself a great injury by going without them. If you require them you should come to me for examination.

"Once Over—Twice Cleaned" The Result When You Use an "Electric Sweeper Vac"

Everyone who visits our demonstration of the Electric Sweeper Vac will be astonished as well as delighted with its efficiency. The motor driven brush, as perfected in the Electric Sweeper Vac, is, we believe, the greatest vacuum cleaner achievement in years. You don't have to push the cleaner to make the brush go, for it is motor driven, and the swiftly revolving brush picks up all lint, threads, hair and embedded dirt, and with powerful suction whisks it away into the dust bag, leaving rugs and carpets uninjured and thoroughly clean.

The Electric Sweeper Vac is constructed simply. Its mechanism is encased in strong steel, insuring constant, dependable operation. You may take it from the closet at any time sure that it will do its work faithfully and well. See our window display and visit our demonstration on the second floor.

Electric Sweeper Vac **\$75.00**
Hose and Attachment for cleaning furniture and curtains **\$16.50**

**HE WOULDN'T GO**

He was a big-game hunter and he had inserted an advertisement in a morning paper asking if any man would accompany him to Central Africa to shoot lions, rhinos, hippos, and so on, the said companion to bear half the cost of the expedition. Late one night, or, to be exact, at two o'clock the next morning, his household was awakened by a violent ringing of the front door bell, and a man was admitted who, to

put it mildly, appeared to have been winning. "Look here," explained the visitor, "I read your advertisement this morning. I read your 'vertisement' this mornin' and I was bound to come to you." "Well," queried the hunter, "it's a bit late to talk business, but will you accompany me?" "Compan' you?" retorted the visitor. "No, shir. I called to tell you I'd seee you hanged first."

At the old rate of exchange cost of meager living, a year in Russia has mounted to \$460,000, according to Lloyd's bank report.

Social Personal

An interesting wedding took place at St. John's Church, Duncan, on Thursday last when Capt. A. Phillip Pullen was married to Isabel Hunter, daughter of the late John Mann, of Fernie, B. C. Rev. F. L. Stephenson officiated, assisted by the Rev. A. Bischoffberger. The bride, who was a graduate of the Royal Jubilee Hospital, Victoria, has acted as superintendent of the King's Daughters Hospital, Duncan, for some months past. She looked charming in her wedding gown of white Liberty satin and marquisette, with conventional veil and orange blossoms, and carrying a prayer book in place of the customary bouquet. Miss Pullen, sister of the groom, was the only bridesmaid, wearing in mauve with black picture hat. Mrs. Pullen came supporting the bridegroom. After the ceremony a reception was held at the hospital. Capt. and Mrs. Pullen left by motor for Victoria and will later leave for England en route for Nigeria, where the bridegroom has accepted a position with the British Administrative Office.

A. W. Cunningham and H. Roy, of Cumberland; D. C. Stephenson, Dr. D. E. Kerr, of Duncan; G. Goodman and family; R. J. Hindmarsh and Mrs. Hindmarsh, of Nanaimo; J. D. Pollock and Mrs. Pollock, C. O. Bell and Mrs. M. Bell, of Duncan; Rev. H. Payne, Miss Payne, R. H. Payne, of Saturna Island, are staying at the Dominion Hotel.

J. H. Manson, P. E. Peterson, Miss Stillwell, Rev. David M. Rose, W. H. Morris, G. C. Grant, S. H. Cox, W. H. M. Murray, Mr. and Mrs. A. M. Stephens, of Vancouver; P. E. Parlett, of Duncan; M. Bolster, of Cowichan; R. Forrest, of Hill Bank; J. W. Van Forman, of James Island, and Mrs. E. H. Latham, of Kaslo, are registered at the Strathcona Hotel.

The Ladies' Musical Club has postponed its usual monthly recital which was to have taken place at the Empress Hotel on Wednesday, owing to the fact that it is taking in the Y. W. C. A. Fair of Nations, where it is arranging for a series of variety entertainments. Among the artists assisting in these entertainments will be Major Bullock-Webster, Messrs. R. Morrison, H.

Mr. F. G. Mulliner, head of the C. P. R. Baggage Department, is leaving on Wednesday for Norfolk, England, where he will spend a week and return with Mrs. Mulliner and their two small children who have been visiting friends in England for the past four months. Mr. Mulliner expects to be absent about six weeks.

Mrs. C. B. McAllister came over from Vancouver on Saturday to attend the annual session of the Provincial Chapter, I. O. D. E., which are being held to-morrow and Wednesday at the Empress Hotel ballroom. During her stay here she is the guest of Mrs. A. P. Griffiths, Scott Avenue.

At "Breadalbane," 1155 Fort Street, on Saturday evening, the Rev. Dr. Campbell officiated at the marriage of Henry Harkness and Mrs. Bessie Smith, both of this city. Miss Mabel Smith attended the bride as bridesmaid. After a trip to Seattle Mr. and Mrs. Harkness will reside in Victoria.

D. Sanier, of Morris, Minn.; Mr. and Mrs. J. McElroy, of Seattle; Charles Horne and Geo. Trowell, of Calgary; A. H. Edwards, of Ottawa; A. W. Swanson, of Sanders, Mont.; E. G. Le Moine, of Palmer, N. B.; E. G. Beadwell, of London, Eng., are guests at the Strathcona Hotel.

Cecil Fanning, the distinguished American baritone, writes that he will spend his summer vacation this year in British Columbia. Mr. Fanning and his accompanist, Mr. H. B. Turpin, and Mrs. Turpin, have secured a house in Victoria, where they will make their headquarters.

Mrs. G. H. Briscoe and H. Danforth, of Calgary; C. J. Cotton and Mrs. Cotton, of Wainwright, Alta.; L. Hammill, E. J. Palmer, and E. P. Van Vent, of Edmonton; James Brown, of Vigreville, Alta., are guests of the Dominion Hotel.

Mrs. R. C. Boyle, Provincial President of the I. O. D. E., who arrived on Saturday, is the house-guest of Mrs. Henry Croft, "Mount Adelaide," Esquimalt. Mrs. Dennis Cox, Provincial Councillor of the Order, is the guest of Mrs. H. T. Shaw, Powl Bay Road.

Mrs. R. L. Wilson and her little daughter left on Saturday for Montreal on receipt of a wire stating that Major Wilson is ill with influenza in the eastern city. Mrs. Wilson was accompanied as far as Vancouver by her mother, Mrs. T. Redding.

Latest reports from Vancouver state that His Honor the Lieutenant-Governor is now out of danger. Should no complication arise, he should be out of hospital in two or three weeks, according to the report of his physician.

Miss Marjorie Campbell on Friday afternoon at "Breadalbane," her home, gave a tea in honor of Miss Betty Gray, daughter of Mr. and Mrs. Andrew Gray, who intends to leave for Europe with her father and mother this week.

A. C. Dee, of Nelson; R. Bell, of Revelstoke; J. James, of Lower; and Miss Jessie G. Roy, of Montreal; S. H. Green and Mrs. Green, of Kamloops, are guests of the Dominion.

Frank Johnson, sales manager of the Pacific Biscuit Company, Seattle, accompanied by a number of his salesmen, are spending the weekend at the Dominion Hotel.

Mrs. Watson, of Westholme; Miss W. P. Watson, of Kingston, Jamaica, and Mrs. W. J. Watson, of Chelmsford, are guests at the Empress Hotel.

Mrs. Leslie Gault arrived yesterday from Prince Rupert and will be the guest of her sister, Mrs. L. S. V. York, 365 Arnold Avenue, for the next few weeks.

Kent, R. R. Webb, R. B. Mackenzie, Mrs. R. H. Pooley, Mrs. Chas. E. Wilson, Mrs. Aldous, Mrs. Allwood, all of whom will sing; Miss Dorothy Stuart Robertson will give impersonations, Miss Gertrude Hickman an Apache dance, while four young girls will contribute a dance called "Thais." Selections will be given by the Redfern Orchestra, Mrs. A. J. Gibson and Mrs. C. A. Ward will share the role of accompanist.

A wedding of particular interest took place on Saturday last at noon, when Capt. and Rev. Dr. Campbell, of "Breadalbane," united in marriage Miss Kathleen Logan, daughter of Mr. and Mrs. Hugh Logan, of Third Street, Sidney, to Mr. Robert Errol McClure, also of Sidney. The bride, who was dressed in a travelling suit of gray serge with hat to match, was given away by Mr. E. S. Stirling, of Saanichton, an old friend of her fatherly, and was attended by Miss Ursula Gertrude Stirling as bridesmaid, who was wearing a dark gaberdine. Robert Errol McClure supported the groom. The happy couple left for their honeymoon trip by the afternoon boat for Vancouver and Sound cities. The bride was a popular and efficient attaché of the local staff of the B. C. Telephone Company, in whose service she has spent the last five years, while the groom is equally well known on account of his athletic activities, being a hardworking member of the Sidney Lacrosse Club, whose line-up he appeared for the past three years. On their return they are to reside in Sidney, where the groom is an employee of the Sidney Rubber Hoofing Company.

Much interest is being taken in the cabaret and dance to be given at the Sooko Harbor Hotel on Tuesday evening, April 19, in aid of the funds of the Sooko Branch of the Boys' Naval Brigade. Among the Victorians motoring out for the affair are Brig-General Clark and Party, W. H. Langley, President of the Victoria Branch of the Navy League, Mrs. R. H. Pooley is directing the cabaret programme and an excellent entertainment is assured.

Mr. F. G. Mulliner, head of the C. P. R. Baggage Department, is leaving on Wednesday for Norfolk, England, where he will spend a week and return with Mrs. Mulliner and their two small children who have been visiting friends in England for the past four months. Mr. Mulliner expects to be absent about six weeks.

W. H. Warner and Mrs. Warner, J. Willard Lettich, Frank H. Partridge and Mrs. Partridge, of

Vancouver, are at the Dominion Hotel.

Miss Edith Elliers of Victoria was the guest of honor at a bridge party given by her hostess, Mrs. H. G. Barber of Kitimat, on Friday evening.

Mrs. F. A. Berryman, of 1145 Mason Street, left yesterday afternoon for the Terminal City on a short visit to her daughter, Mrs. A. Patton.

Mr. and Mrs. George V. Rankin, of Yakima, Wash., is registered at the Empress Hotel.

Mrs. E. B. Hall, of Montgomery, West Virginia, is a guest at the Empress Hotel.

W. P. Murray, of Dallas, Texas, is a guest at the Empress Hotel.

FOR CHILDREN
THE SANDMAN STORY FOR TO-NIGHT

MR. BLACKBIRD'S COAT OF BLACK

Mr. Blackbird, who is sometimes called the crow blackbird, did not always wear the brilliant coat of feathers he does now, it is said in Birdland.

It is told that once he wore a coat of dusty white and that some of the impolite birds used to call after him: "why don't you change your name to dusty bird or else put on a black coat?"

Mr. Blackbird did not like this and one day he said to his wife: "I mean to get a black coat somewhere or somehow and stop these birds making fun of us."

Little Mrs. Blackbird, who was smaller than her mate, looked at her husband with admiring eyes. "I know you will manage it, my dear," she answered her husband. "You always do anything you get your mind on."

"But what about my dress? It is the same color as your coat. Will I have a black dress to take the place of this?"

"Of course you shall, my dear," answered her husband. "I will get with me and we will see what can be done."

Mrs. Blackbird followed her mate over the hills and far away from the woods where they lived, to a farm where they sometimes in the yard picked up corn.

But Mr. Blackbird was not interested in corn that day; he flew to the sill of an open window and pecked in. Yes, there was the farmer's wife rubbing the stove with the glossy black stuff and making it shine.

Mr. Blackbird flew to his wife and whispered to her and away they both flew to the open window, where the farmer's wife had left the dish of polish.

"I will jump in first," said brave Mr. Blackbird, "and if it does not harm me then you can do the same, and if we look half as fine as the stove the birds will never make fun of us again."

When Mr. Blackbird jumped out of the dish he was no longer a dusty white, but very black. "It did not hurt a bit," he told his wife, and in she went.

Then off they both flew to a tree where little Mrs. Blackbird rubbed and polished her husband's coat until it shone like a piece of coal and showed different colors in the sunlight.

"There, my dear," she said, sitting on a twig to admire her mate. "You wonderful in your new black coat!"

Mrs. Blackbird had forgotten all about her dress, but her devoted husband had not, and he set to work to polish her feathers. "You are so beautiful," he said, "I will never let you get dusty again."

FAIR OF NATIONS TO OPEN TUESDAY WITH PAGEANT

Formal Opening by Duchess of Devonshire To-morrow at 2.30 o'Clock

Her Excellency the Duchess of Devonshire will formally open the Y. W. C. A. Fair of Nations at the Armories, Bay Street, to-morrow afternoon at 2.30. The spacious drill hall has undergone a complete metamorphosis under a wealth of flags and bunting and a host of gaily-decorated stalls as the result of the efforts of a band of busy workers who spent many hours in preparation last week and again to-day.

Brilliant Spectacle. Immediately after the opening ceremony, the pageant will take place. This promises to be a brilliant spectacle, the participants being elaborately costumed to represent figures famous in history and legend. The pageant will be divided into sections as follows:

Section One—The group will comprise Britannia, Miss Kate Hemming, Neptune, Mr. Hewitt, and children attendants, Gloria Wilson, and Austin Goward; sailors from Destroyer, H. M. S. Patriot; Boys of Naval Brigade; sailor girls and boys.

Section Two—England—Queen Elizabeth, Mrs. Hamlet; members Courtiers Maple Leaf, and Triumph, A.O.F., in white dresses and rose garlands, also few gentlemen in the dress of the Foresters' Order and Girl Guides.

Section Three—Ladies and girls costumed to represent Scotland, Ireland, Wales; also members Victoria Purple Star, No. 184, L. O. B. A., and two gentlemen as Black Knights.

Section Four—Australia, New Zealand, India, Egypt.

Section Five—Canada. Under this will be Miss Canada and the nine provinces, also members Agnes Deans Cameron Chapter, I. O. D. E.

Section Six—America. In which will be represented Liberty, Uncle Sam and Martha Washington.

Section Seven—France, Belgium, Normandy, Spain, Italy, Denmark, Switzerland, Russia.

Section 8—China.

Section 9—Holland.

Section 10—Japan.

Section 11—Victoria Ladies' Musical Club, dressed to represent different periods of music.

Section 12—Island Arts and Crafts Club, representing studies by Rembrandt, Romney, Paget, Leighton, etc.

Section 13—Queen Alexandra Review No. 11 Macdonald.

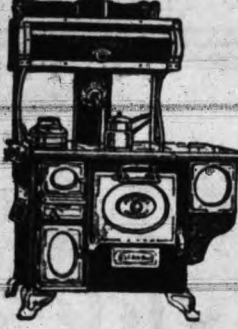

Section 14—Y. M. C. A.

Section 15—Y. W. C. A., representing all nations.

Other Attractions. The Pageant is under the direction of Miss Kate Hemming, convener, and Major P. Frideaux, M. C. A. full rehearsal is called for to-night at 7.30 at the Armories, Bay Street.

Among the other attractions at the Fair will be the novelty performances by the Ladies' Musical Club, Macdonald drill, maypole dance, butterfly drill, country dances, Irish jig, Highland fling, etc.

Music for the Fair will be provided by the Fifth Regiment Band, Salvation Army Band, Heaton's Orchestra, and Y. M. C. A. Orchestra.

the 500 prize. During the afternoon Miss Edwards, Miss W. Bell and Miss Dorothy Dorrell sang very sweetly, adding to the pleasure of the many guests. A delicious tea was served in the dining room under the con- vnership of Miss L. Johnston, the table being beautifully decorated with daffodils, primroses and a cloud of golden tulle, with Springlike effect. In addition to the players over fifty guests came in at the tea-hour.

The regent and members of the Chapter, which is composed entirely of young girls, wish to express their sincere thanks to Mrs. Paterson for her generosity in placing her home at the Chapter's disposal.

Twenty-four tables were in progress in the drawing room, billiard room, den and spacious hall. Mrs. Paterson and Mrs. Gordon Smith, the regent, receiving the players on arrival. Mrs. Horsey was the winner of the bridge prize, and Miss Bayless of

visions of a slim creature of flashing eyes and saucy smile. The very sound of the name seems to preclude any relationship with demure Anne, but they have a common origin in the Hebrew word meaning "grass," which the Irish have identified with their native Aine (Joy).

The name from which Annette was evolved was first used in France after a supposed appearance of the good St. Anne to two children at Auray in Brittany, and first gained vogue as a feminine name through the Bretonne heiress twice Queen of France. Its popularity in court circles insured its widespread usage among all classes in France.

Scotland adopted it in preference to the English Anne, calling it Annet. It penetrated England without change of form, and, curiously enough, in view of Anglo-Saxon distaste for Gallic names, maintained its original Frenchness. Hence, in this country, it is bestowed without reference to its foreign flavor, and is almost never used as a derivative of Anne.

The yellow jaquith is Annette's talismanic gem. It will protect her against lightning, and insure her safety in travelling. At the approach of danger or disease it is said to pale in color. Saturday is her lucky day, and a hat lucky number.

While being tried in Larkie Charles La., court on a charge of murder, a negro fell asleep and was awakened by order of the judge.

France is responsible for the dashing little name Annette, which conjures up

COMOX DISTRICT MAKES PROGRESS

Report on Development Is Made by Board of Trade

Courtenay.—The annual meeting and smoker held by the Courtenay-Comox Board of Trade on Tuesday night in the dining room of the Riverside Hotel did not hold one tedious moment, although it lasted until midnight, says the Comox Argus. It had been wisely decided that nothing but the election of the principal officers should be made that night and routine business should be shelved. There were from forty to fifty business men present and the entire district was well represented.

The meeting refused to listen to the protests of the president and secretary-treasurer, and J. N. McLeod as president and Theodora Leod as secretary, will again bear the chief burden of the work of the Courtenay-Comox Board of Trade for the ensuing year. J. H. MacIntyre was elected vice-president; all other appointments were deferred till a later meeting.

J. N. McLeod, as president, submitted his report of the activities of the board during the year just past.

Many Vital Matters
Many subjects of vital interest to Comox district have been dealt with, including the proposed new water for Courtenay, Courtenay River Bridge, Acquisition of the Indian Reserve, Progress and Publicity Campaign, Post Office, Membership and Wider Markets.

I am glad to be able to say that, as far as the water question is concerned, a great deal of progress has been made and I believe that the cooperation of the Board has been welcomed by the Council of the City of Courtenay. We have been persistent in urging the installation of this system, but that persistence has been characterized by the utmost friendliness towards those in charge of the project. I believe we may look for action in a very short time.

We have, ever since the inception of this Board advocated and urged the construction of a new bridge over the Courtenay River, and, in continuing the work carried on by my predecessor in office, and assisting the past and present members of the Legislature, we received a definite promise from the provincial Government that the bridge will be taken in hand this year.

The Indian Reserve question will probably be settled this year, as it affects the Dominion and Provincial Governments, when the city will, no doubt, have an opportunity of acquiring a portion of the park purposes.

Post office matters have been under discussion and while we have not been granted a new building, accommodation has to some extent been enlarged. We have not given up hope of securing a new postoffice, and

Wider Markets

Some months ago a campaign was begun, the object of which was to find new sources for the sale of the agricultural products of the valley. In conjunction with representatives of agricultural interests, members visited Powell River and found a ready market for milk and other produce, if suitable connection could be made between the two districts.

Our membership has steadily grown and most of the business men of Courtenay and many from the surrounding district have signed their intention of joining. We crave the closer friendship of the agriculturist, the lumberman or anybody who leaves from this report that our Board of Trade is truly working in the best interests of the valley. We have tried to show our course during the past year so that any problem tackled if solved, would redound to the benefit of the whole district.

Our publicity campaign has not been as strongly underwritten as we would have liked, on account of lack of funds, but the small leaflet issued has secured some results. This is a matter on which the Board is always open to suggestion.

Progress has been made with navigation on the Courtenay River, the Department of Public Works having submitted a map for marking, so that it will be guided in any work under the river. We have also been successful in securing a license which will greatly facilitate the work of freighters.

Good work has been done along other lines some of which were the unsafe condition of the railway crossing, telephone rates increase, condition of Courtenay River, experimental work on the Courtenay Road.

During the year we have been visited by the Vancouver and Victoria Boards of Trade. Delegates also attended the convention of the Associated Boards of Trade of Vancouver Island, held at Duncan.

A feature of the year were our visits to Lazo on invitation of the people of that district. It has been my wish that we could have made visits to other sections, and we must make up our minds to do so in future.

Ladysmith.—Charlie Clapp, of the Allen players was in the city during the week making arrangements for their usual Summer vacation in this district. The players have been in the Hippodrome Theatre, Tacoma, during the Winter and are looking forward to their camping holiday across the bay. They will be giving a performance in the Rialto Theatre here on April 27 and 28.

Series of Addresses
Nanaimo.—The Rev. C. S. Qualton Dean of Columbia, will hold a series of services in St. Paul's Church commencing Sunday afternoon, continuing every evening until the following Thursday. The dean is well known as a scholar and preacher and his addresses are always most helpful and full of interest.

Interest. This opportunity of hearing him should be taken advantage of by as many people as possible. A list of the subjects of the Dean's addresses will be announced later.

Men's Club
Cumberland.—The Men's Club held a most enjoyable dance at the Anglican Church Hall on Tuesday, the dance continuing from 9 to 12 p. m. The attendance was very large and the members of the club are to be congratulated on its steady increase in membership and popularity since its inception.

Fishing Prospects
Campbell River.—During the past week there has been a steady stream of visitors to Campbell River taking advantage of the delightful Summer weather prevailing here of late. Trout fishing on the river will be in full swing when a great increase in the number of visitors is expected.

Is Improving
Qualicum Beach.—The many friends of Rev. J. W. Dobbin who met with an accident recently, will be pleased to know that he is able to be around the house again, though still a bad cripple.

Fishing Season
Quathiaski Cove.—While the prospects for the coming season in the salmon fishing industry are somewhat dubious there are indications that the higher grades, such as bluebacks, cohoes and red-springs are likely to be put up this year by the canneries of Quathiaski Cove.

The enormous stocks of last year's second grade fish are still on hand and it is not likely that humps and noters will be bought by the canners this year. The fact that preparations are going forward at the cannery here make things look brighter for the coming season.

Co-operative Shipping
Courtenay.—The gas-bout Mamook will arrive at Courtenay on Friday or Saturday of this week with first fruits of co-operative shipping up the Courtenay River by the merchant of Courtenay as its freight, says the Comox Argus.

There has long been a feeling that merchants could save a very considerable sum in freight if they could induce a boat to come up the Courtenay River regularly. The Courtenay-Comox Board of Trade has during the past year made several attempts to induce a boat to come up regularly but the drawback has always been that enough freight could not be secured. A few weeks ago the Mamook came up the river with a load of feed for the Royal Standard and while here Mr. Stephens of the B. & J. got into touch with her captain, Mr. Clapham, and found out what terms he wanted to come up the river again. The result was the securing of a boat load of merchandise which was being brought in here at a figure very advantageous to the merchants concerned. When the Mamook arrives an attempt is to be made to arrange a regular trip up the river.

Against Proposal
Cumberland.—It is understood locally that the Lord's Day Alliance is endeavoring to have prohibited by law hunting and fishing on Sundays. A petition against the movement is being circulated around town. Over 500 names have been appended so far, and lots more are expected. The local hunters and fishers are up in arms, and practically all of them work in and around the mines in the mornings, and when the mines are working, the full time has no chance for recreational sport except on Sunday. Therefore they are determined to do all in their power to make the bill a dead letter.

Pleasing Programme
Duncan.—It is seldom indeed that a Duncan audience has been offered such a wonderful musical treat as was given in the Agricultural Hall Thursday evening, under the auspices of the Cowichan District Branch of the United Farmers of British Columbia, when T. Kelway and party of gifted artists came up from Victoria and rendered a programme of music and song that will long stand out in the memory of those who were fortunate enough to attend. From the first to the last item, the programme was one of high merit, and the artists responded in a most generous manner to the repeated accolades that were demanded. It is to be regretted that the incidence of other attractions should have militated against a larger audience being present. Following the programme a most delicious supper was served, and a dance followed, the music being supplied by a special five-piece orchestra from Victoria, under the direction of Mr. Spencer.

Dances Held
Nanaimo.—The last of a series of dances under the auspices of Malaspina Chapter I. O. O. F. was held Friday night in the Odd Fellows' Hall and proved a huge success. Mrs. T. W. Martindale, Mrs. George Wilkins, Mrs. Purkin, Miss Dobson and Mrs. A. Randie acted as patronesses.

Mayor is Leaving
Ladysmith.—M. Nimmo, who has been in business in the city here for the past twelve or thirteen years, has sold out his interests to Mr. Polm, of Seattle.

During his residence in Ladysmith, Mr. Nimmo has always associated himself with the progressives, being an active officer of the Fraternal Order of Eagles, the president of the Board of Trade, and, for the past three years as an alderman on the city council. This year he was elected as the chief magistrate of the city, being returned as the mayor, and during the brief time he has been in office, has accomplished many improvements, and taken a very keen interest in the affairs of the city.

Mrs. Nimmo is residing at Long Beach, Cal., on account of her health and Mr. Nimmo will leave for that city as soon as he has finally settled all his affairs.

The council meeting on Monday last was the first one held in the new council chamber, which has been fitted up in a sensible business-like style and is a credit to the city.

His worship, the mayor, declared the new chamber open for business and in so doing expressed his great pleasure that, at last, the council had a suitable place for their weekly meetings and at the same time he expressed the regret that he had to sever his connection with the council and the city and this meeting would in all probability, be his last. He thanked the aldermen very much indeed for the loyal support they had given him whilst he had occupied the chair, many improvements had been made, and many progressive ideas were shaping up. They had been criticised, but one expects criticism if any progressive measures are to be introduced. He had taken keen interest in the workings of the municipality and had acted in every case to the best of his ability. His worship again thanked the aldermen for the loyal backing which they had given him and hoped that they would give the same co-operation to the future mayor that they had given to him.

TO POPULARIZE PROVINCIAL LIBRARY

Mr. Killam Sets Out Case to New Westminster Audience

The library as an educational institution, providing the facilities for supplementing the instruction of the schools in the case of the young, supplying information through books to those who wish to add to their store of facts about their daily occupation or giving entertainment in reading along vocational lines, furnishing good fiction for the cultural side, and serving as the unifying factor in our democracy—such were the points elaborated by Herbert Killam, of Victoria, secretary of the Provincial Public Library Commission, in his address to the council chamber of the New Westminster City Hall, on Thursday. Mr. Killam showed that he has given thought to the function of a library, has a clear conception of its social place in community life and a broad vision of how it may more practically serve to deepen knowledge and the high purposes of democracy. He also gave the assurance that the collection of books in the Provincial Public Library at Victoria was for the use of the people of the province, declaring that Dr. McLean, Minister of Education, was very sympathetic to the library idea, and his policy was, to extend the service of the province's collection throughout the province.

Advantage of Service
As announced by Alderman William McAdam, who presided, already the local Carnegie Library had an experience of this help. Mr. Killam having recently sent over a collection of books that would furnish reading for those who wished to fol-

low up the study of subjects such as those covered in some of the University lectures, and especially subjects relating to the province, and that he had the assurance of the acting librarian that these books would be ready for circulation next week. Mr. Killam had also donated to the library several books dealing with B. C.'s history, and some biographical works, and they appreciated his offer of co-operating with them in furnishing a loan of books of a technical nature, such as it might not be possible at the time to purchase. The revenue of the library was the appropriation of \$5,000 by the City Council, of which \$1,000 was available for books and magazines.

The Reading Habit
In discussing what a library would do for a community, Mr. Killam emphasized the influence of suitable books on the younger generation. From 14 to 16 years was the peak of the reading period with children and if the reading habit is fixed then, the girl will never lose it. Libraries, then, should furnish books for young people for inspiration, for information and development.

There is a certain age in young life when the imagination should be fed. The reading of books also

fills out the outlines of the knowledge the child gains at school, and the speaker showed how this worked in the case of historical books fixing the meaning of dates on the mind and making periods real. Thus the library was a supplementary educational institution.

The man or woman who needed additional information in their daily occupations should also be served by the library. Those who lead in the thought of a community should have access to current thought. It was good business economy for a community to buy the books that would serve a number of people rather than have each buy the same book. As for reading for entertainment, much of what is best in English literature is what is known as fiction, and any library incomplete if it omits this cultural effect. He felt that no harm came from filling the shelves with standard English fiction.

Effect of Public Opinion
The city with a library is a more desirable place to live in, the speaker showed. It is the one institution that is most democratic, and serves all classes. It is the unifying centre in a community.

If a library is to fulfill its purpose, it has to be backed up by public opinion. Its officials must have a chance to live and develop in their work. It should have its proper equipment, pictures should be supplied such as meeting the call there is at the present time for pictures of birds, trees and flowers of B. C. It is here a connecting link with schools. The library can find many ways of helping other than by books. The Provincial Library Commission, he stated, aimed to help. There were 20,000 books in the Provincial Library at Victoria, and it was the policy of the Minister that these should be of service to the people of the province as a whole. The Commission would help by counsel and advice and recommend where the best books on certain subjects could be obtained at the best rates.

"SALADA"

There is genuine and unmistakable pleasure in its daily use.

Black - Green } Try a packet from your grocer,
or Mixed } but be sure it's "Salada"

Ald. Keary, in moving a vote of thanks, said that the Library Commission would accept Mr. Killam's offer.

S. P. C. A. ACTIVITY
Accompanying is a report on S. P. C. A. work for the first half of April 1921:

April 1.—Visited firm with regard to lame horse which was taken off the road.
April 4.—Investigated case of cruelty to dog.
April 6.—Called to Royal Oak by Sausalik Police to look into case of Chinaman's horse.
April 8.—Attended police court with regard to previous case. Horse ordered to be destroyed, and warrant issued for Chinaman's arrest.
April 9.—Visited Albert Head to investigate case.
April 11.—Police reported on horse unfit for work, had interview with Dr. Keown on matter.
April 12.—Stopped Chinaman on

Hillsdale Avenue with very lame horse and sent him to see doctor.
April 13.—Visited Langford Lake to investigate case.
April 14.—Investigated case of goat, said to be in poor state and not properly cared for. Was also called to city detective office with regard to poisoned meat put out for dogs, and took sample to Government Analyst.

April 15.—Stopped a Chinaman with a very old and very underfed horse, quite unfit for work, called in doctor and had horse condemned, and subsequently destroyed.
April 16.—Attended police court for hearing of case remanded from April 8.

The mystery of a revolver shot that sent a bullet through the window of Mr. Flur's residence at Amherstburg has been solved by the confession of Night Watchman Cabana that "he was making his rounds with a Colt revolver in his hand when he had to sneeze and the gun went off."

ENTERTAINMENT NEWS
Published occasionally to acquaint the public with the writers and the illustrators who make Cosmopolitan America's Greatest Magazine.

The Capital of Chance

If one were to seek the gayest, richest, smartest, carefreest throng in the world, one would probably sail away to the Azores of Monte Carlo and mingle with the throngs on the Riviera or wander through the costly salons of the Casino.

The story of Monte Carlo is both brilliant and tragic. There are smiling happy faces around the roulette tables, but now and then, when the wheel stops, the sharp report of a pistol for a moment interrupts the play. Someone has been "cleaned."

But "it is considered most caddish to kill yourself inside the Casino," and the game presently goes on.

Perhaps no one is more familiar with the inside history of this famous resort than Mrs. C. N. Williamson, whose absorbing "Behind the Scenes at Monte Carlo" appears in April Cosmopolitan. She has spent the season there for fifteen years.

Where the Gods Are Underground

Every year the Hopi Indians of New Mexico, stage their well known "Snake Dance"—a religious ceremony to invoke rain in which real live rattlesnakes are carried by the priests.

Later the snakes are carried back into the desert and set free—the belief being that they crawl back underground (where the Gods dwell) and carry the prayer for rain with them.

Oddly enough, says Mary Roberts Rinehart, in her article, "Desert Caravansers" in April Cosmopolitan, "though the priests are frequently bitten by the poisonous reptiles, they never die—or, at least, so the Indians claim."

WANTED—Men and women to represent Cosmopolitan, getting subscriptions and securing renewals. Perhaps you know of someone who might be interested. Address: International Magazine Company, Dept. EN4, 119 West 40th Street, New York City.

Music and Noise

A grumpy old philosopher once said that "of all noises music is the most disagreeable."

George Ade, America's greatest humorist (and a keen philosopher, too, by the way) has a different idea about music and he tells about it, in a merry, witty epigram in the April Cosmopolitan.

Ade likes popular music and says so. He believes it possible to have good taste and still like "Mother Macdoo" and "Molly Darling."

He also maintains that one can enjoy grand opera without being either a fanatic or a college professor.

"Probably it would be awfully hard," he says, "to room with one who knew too much about music."

You will get a refreshingly new slant on music and musicians, by reading his short editorial in the April issue.

The National Bureau for the Advancement of Music liked it so well that they are calling it to the attention of every prominent music lover in the country.

An Answer to An Old Question

Is it possible for a man—or a woman—to love, at one and the same time, two different people?

How easy to answer "yes." And how easy to answer "no." Depending, of course, on one's own experience—or lack of it.

But surely no question has brought humanity more puzzlement, more soul-searching and heartbreak than this one. Perhaps you will think that Frederick Arnold Kummer has the wrong answer. But no story ever written has made a more sympathetic and beautiful effort to settle this world-old problem than "The Woman Who Loved Two Men" in April Cosmopolitan.

EXIT

When F. T. Barrow conducted his famous museum in New York, folks used to come in and bring their lunches and stay all day. Finally Mr. Barrow hit upon the effective plan of having his leather-lunged announcer cry out through the megaphone, "This way to the EXIT."

This way to the EXIT. If the great show-man could return to earth would he find people more sluggish the door now than they were then? We are inclined to believe he would.

New York's Most Interesting Studio

119 West 40th Street New York

"You can find the double of any face in the world in New York City," someone has said. A very interesting statement, but hardly a true one.

One of nature's most remarkable phenomena is her infinite variety in moulding human faces.

One daisy looks very much like another daisy; one sparrow, or swan, or wolf looks very much like any other.

But with a thousand million faces in the world, each differs (with a very few exceptions) from all the others.

He works in a spacious, sun-

Perhaps that's why Harris, on Fisher, for more than ten years now, has fared it possible to draw a beautiful face each month for the cover of Cosmopolitan, without ever once having two of them look alike.

Fisher draws from living models. He has often used the same model more than once—but the result is never the same, because, like all great artists, he draws not the model herself, but the picture she suggests to him.

The picture of an outdoor girl on the April cover is one of the most attractive he has drawn.

Husbands for Sale!

A Hopi girl must pay for her husband, within the first year after marriage, fifteen hundred pounds of hand-ground meal! She has to grind it herself, too, with a couple of stones! She must also build and own her own house. But if hubby stays out too late at night or drinks too much firewater, she throws his saddle outdoors—and he's a divorced man. These are a few of the many interesting customs Mary Roberts Rinehart has discovered among the ancient Pueblo Indians of Arizona and New Mexico. Read "Desert Caravansers" in April Cosmopolitan.

No One Ever Saw Him—But—

You will like Monsieur Lanyard, the brilliant French spy. And then you will make an amazing discovery. You will learn that he is no other than "The Lone Wolf"—that mysterious, intelligent criminal of pre-war days who was never seen, yet whose ghostly hand had dipped into the jewel boxes of practically every great house in Europe. Louis Joseph Vance has written a fascinating romance of intrigue and mystery around this great character. Don't fail to read the opening installment of "Alias the Lone Wolf" in April

Stop Any Corn

any minute, in this simple way

You can end any corn when you will. You can stop it any minute by a touch.

Apply Blue-jay—the liquid or the plaster. The pain will cease. In a few days the whole corn will loosen and come out.

This happens to at least 20 million corns a year. It will happen to yours when you say.

The way is modern, gentle, scientific. It is not like the old harsh treatments.

It ends corns—removes them—while paring only keeps them.

It is made by a surgical dressing house which every physician knows.

You do yourself injustice if you let corns spoil one hour. Millions have learned to avoid them. Prove out their way tonight.

To Repeat Lecture.—In response to many requests Mrs. E. M. Cuppage is repeating her lecture, "Seeing B. C. First" at 8 o'clock this evening. Mrs. Clark has placed the lounge at Devonshire House, 732 Port Street at the disposal of the lecturer, and anyone interested is invited. The lantern slides tell the story of a trip over a trapping line, a holiday excursion to Anderson and Seton Lakes, and the Summer camp of the C. Mountaineering Club in Gabriola.

BRIEF LOCALS

To Lecture Wednesday.—Mrs. Helle Ash will speak at Christ Church schoolroom on Wednesday evening, further details of which will appear to-morrow.

Legion of Frontiersmen.—Meeting of the Victoria City Squadron will be held in the Army and Navy Rooms, Stanley Building, on Tuesday, April 19, at 8 p. m.

Social at Marigold.—A five hundred drive will be held in Carno's Hall, Marigold, at 8 p. m. on Friday evening, April 22, in aid of the building fund of the Garden City Women's Institute.

Dr. O. M. Jones Chapter.—Dr. M. Raynor will address the members of the Dr. O. M. Jones Chapter, I. O. O. E., at its regular monthly meeting at headquarters to-morrow evening at 8 o'clock.

Cobble Hill Develops.—Another proof of the development of Cobble Hill is shown in the location of a barber shop at that point, being of great service to patrons in that neighborhood.

In Civil Courts.—An unusual lengthy list of Chamber applications were heard by Mr. Justice Macdonald in the Supreme Court to-day. Chambers being adjourned for a further session this afternoon.

City Prepares Address.—An address for presentation to the Duke of Devonshire, Governor-General of Canada, has been prepared at the City Hall. The address will be presented to the Duke by Mayor Porter to-morrow.

Ministering Circle.—The annual meeting of the "Ministering Circle," King's Daughters, will be held in the Rest Room, Hibernia-Bone Block, at 3 p. m. Officers for the ensuing year will be elected, and a large attendance is requested.

Two Week-end Fires.—The fire department had two runs over the week-end, one on Saturday evening to a small fire in premises next to the Royal Victoria Theatre, and a second last night to 1781 Rockland Avenue, where a roof was slightly damaged. The latter fire occasioned some alarm, no less than three cases being turned in for the same location.

Would Like Cow.—Mrs. Hallett, 1905 Ashford Avenue, reported to the police to-day that somebody had tried to steal a cow in a barn on her premises. A window was broken, but the thief or thieves did not accomplish their object. The week previously no less than fifteen leghorn chickens had been taken from the premises, it is stated.

Sons of Canada.—The organization meeting of the Sons of Canada, which was called for to-morrow night, has been postponed until eight o'clock sharp at the Bonta, Bowen, Belmont Building, Thursday evening of this week. All who are eligible to join are cordially invited to attend this meeting, at which important details of organization will be discussed.

Favorite Cantata.—Gaul's favorite cantata, "The Holy City," will be given in St. Andrew's Presbyterian Church Tuesday evening, May 3, by a choir of fifty voices. The soloists include: Mrs. Bertram Mayell, soprano; Mrs. R. Baird, contralto; Mr. J. O. Dunford, tenor; Mr. F. J. Mitchell, baritone. The harp will be played by Miss Barfoot, and Mr. Jesse Longfield will be at the organ.

In Spanish Court.—In the Spanish Court to-day before Magistrate Jay, John Bredin was fined \$5 for leaving his car without the requisite tail light, and the Soldier's Settlement Board paid a like amount for a similar offence. D. Thom, charged with the theft of a bicycle wheel, was allowed out on suspended sentence and warned. The latter is a young lad of some sixteen years, whom the Magistrate cautioned before passing suspended sentence.

Inspection by Duke of Devonshire.—On Tuesday afternoon, His Excellency the Governor General, Chief Scout of Canada, will inspect the Scouts and Cubs of this district. Parade has been called at 4 p. m.; the assembly point being the corner of Pemberton Road and Fort Street. Troops and Packs must be in position on time as the column will move off almost immediately. The inspection will take place at Government House. Staves will be carried by all Scouts.

Judgment Reserved.—In the County Court to-day the action of Nobbs versus Brown was continued, being a bitter pleading action. The plaintiff, for judgment creditors, is appealing to take possession of a launch formerly owned by the Mayne Timber and Trading Company, Ltd. John Brown purchased the launch in question, it was stated, and afterwards the sheriff seized the launch for the judgment creditors. The action was to determine the ownership of the launch. A. J. Patton appeared for plaintiff and D. S. Tait for defendant. Judge Lampman reserved judgment.

VICTORIA HEN LAYS WORLD'S LARGEST EGG

A Victoria hen, belonging to a resident of St. Charles Street, has laid the world's largest hen's egg, which was brought to the editorial offices of The Times to-day and measured 8 1/2 inches around its maximum circumference. The enormous egg was laid by a White Leghorn hen. It is presumed that the egg contains two yolks.

News dispatches on April 15 said that Driver Mitchell, of the Vancouver Police Department, owned a hen which had laid an egg with a maximum circumference of 8 1/2 inches. It was claimed that this egg was the largest ever laid by a domestic hen in Canada.

Patriotic Meeting.—The Secretary of the Royal St. George's Society intimates that the great patriotic meeting will be held on Saturday, April 22, at the Parliament Buildings, when the lecturer will be E. Dilleme, official lecturer of the Federation. Mr. Dilleme, who is a guest of the hotel, will lecture on "La Marseillaise du Theatre," illustrated by lantern views. Further particulars may be obtained of the secretary, 2390-2.

"Three M" Society.—The "Three M" Society, of First Congregational Church, will hold their weekly meeting to-night in the upstairs parlor. T. W. Cornett, of the Victoria High School, will be the speaker of the evening, and his address will be of an exceptionally interesting nature. All members and friends are invited to be present.

Cottage Gardeners.—There was a very largely attended meeting of the Victoria Ward Seven Cottage Gardeners at the home of Mrs. Stewart, Tiltmill Road, on Friday. Major Hibben was chairman, and a great deal of routine business was disposed of. The time and place for the holding of the Fall Show were discussed, it being decided that some time in September would be the most appropriate time, and Tiltmill School will be utilized for the purpose. The prize list was ordered to be printed. J. Black, president of the Victoria Cottage Gardeners' Association, was present, and gave a talk on organization, preparation of prize lists and gardening in general. He promised the co-operation of Victoria in the holding of the show, a particularly attractive prize list having been prepared.

WHAT THE CLUBS ARE DOING

Nanaimo Rotaries
At the last meeting of the Nanaimo Rotary Club the following Board of Directors was elected for the ensuing year: Geo. S. Pearson, Harvey Murphy, E. H. Ormond, M. C. Ironside, T. Cunningham, Oliver Eby, Allan Geddes and Jno. Shaw. Among the guests at the luncheon was J. B. Clearhough, M.P.P., of Victoria, member of the Victoria Kiwanis Club, who briefly addressed the gathering, dealing with the work of Rotary, Kiwanis, and similar organizations.

GIRL DISAPPEARS MYSTERIOUSLY AND LEAVES NO TRACE

Detectives Scouring City For Trace of Miss Thelma Marsh

Leaving the house last night with a word to her parents that she was going to the house of friends of the family on Princess Avenue for the evening, and would be back as early, Miss Thelma Marsh, twenty-year-old daughter of Mr. and Mrs. Marsh, 855 Cormorant Street, has disappeared. The girl left the house in company with her father, who turned towards town to make a purchase at a tobacconist's, the girl proceeding up the street in the opposite direction, heading for Princess Avenue. From that time until late to-day not a word has been heard of the girl.

The parents state that the girl was in the best of health, and not subject at any time to lapses of memory, and that only accident or other reasons would have prevented her from getting home. Inquiry at the house of the friends on Princess Avenue elicited the fact that the girl had not been there, so that disappearance took place between the time that Miss Thelma Marsh was seen heading for Princess Avenue and about an hour afterwards, when the telephone inquiries were made.

Inquiries Disclose Nothing.
Inquiry at the city and district hospitals and at the police and detective station elicited the fact that no word of an accident or untoward occurrence had been received. It was thought for a while that the girl might have met with a slight accident, and been taken into a house for first aid, but no word was received to this effect. It was also thought that the girl might have been rendered unconscious by an accident, and could not disclose her identity, but the police about the idea as any such occurrence would have been reported.

Inquiry at the detective office elicited the fact that the city is working on the case, and that it will only be the matter of a short time before some trace is obtained of the girl.

Miss Thelma Marsh was employed at Sommers' Art Store on Government Street, where she was engaged on Monday last.

RESEARCH BOARD IS NEEDED IN PROVINCE

J. G. Thomson, Publicity Commissioner, Tells Gyro Club There is Need of Body

In the course of an address before the Gyro Club to-day J. G. Thomson, publicity commissioner of the Victoria and Island Development Association, advocated the establishment by the Provincial Government of a research council of experts to go into the natural resources of Vancouver Island and the Mainland.

Mr. Thomson argued that a complete survey of the Province should be made and stated that he doubted whether or not there was any available amount of data on the resources of Vancouver Island north of Campbell River.

The speaker told of one incident where he had a letter from a man in the United States who wanted to know if there was suitable clay on the island for the manufacture of table pottery. Mr. Thomson said he took up the matter with the provincial mineralogist and was informed that no information was available, but that possibly Ottawa might know.

Funny Thing.
"That's a funny thing," said Mr. Thomson. "We have to send all the way to Ottawa to find out something about our own island."

Regarding the development of the port of Victoria, Mr. Thomson referred to an interview he had recently with D. B. Hanna, president of the Canadian National Railway, while in Toronto. Mr. Hanna told Mr. Thomson that the only way to develop the port of Victoria was to develop the natural resources of Vancouver Island. The speaker said that that was the key to the whole situation. Ships could not be expected to call here, he said, if there was nothing for them to take away.

"We must have something to export, and to do that we must develop the island," concluded Mr. Thomson. The Gyro Club is now planning an elaborate ceremony for the gathering at which the charter will be presented. An orchestra is to be formed. The Vancouver Club, which sponsored the Victoria application, is bringing over its orchestra, a foot band and about eighty men, and the local Gyros will play the visitors in a soccer game and in the evening the big celebration will be held. It will probably be staged at the Empress Hotel.

OUCH! ANOTHER RHEUMATIC TWINGE

Get Busy and Relieve These Pains With That Handy Bottle of Sloan's Liniment

WHAT Sloan's Liniment does, it does thoroughly — penetrates without rubbing to the afflicted part and promptly relieves most kinds of external pain and aches. You'll find it clean and non-staining. Keep it handy for sciatica, lumbago, neuralgia, over-exerted muscles, stiff joints, backache, pains, bruises, strains, sprains, bad weather effects.

For 39 years Sloan's Liniment has helped thousands the world over. You aren't likely to be an exception. It certainly does produce results. All drug stores—35c, 75c, \$1.46. Made in Canada.

Sloan's Liniment

This position, which the German high command considered as impregnable as Gibraltar had been taken by the Canadian Corps in the face of unprecedented difficulties.

The rector made a strong appeal for a generous contribution towards the relief fund of the G. W. V. A., and a large sum will be handed to the above fund by the authorities of St. John's Church as a result. Mr. Chadwick stated he was glad to have the church associated with the relief of soldiers' dependents.

MEMORIAL SERVICE AT ST. JOHN'S CHURCH

There was a very large congregation at St. John's Church last night at the Special service in commemoration of the great battles of Ypres, Vimy Ridge, and the Somme engagements, all of which took place in the month of April in the different years of the war. The rector, Rev. F. A. P. Chadwick, preached the sermon from the text, Deut. 32:7, "Remember the days of old."

He said that each Easter tide as it came around would ever remind the people of this Dominion of the gallant bravery and heroic sacrifice of the sons who, in the Second Battle of Ypres in 1915, had saved the Channel ports, and prevented the envelopment of the entire northern front, and at Vimy Ridge in 1917 had wrested from Germany the key position of the Great War.

Placed With Equipment.—The James Bay Methodist Church has been further improved by the installation of new pews, the product of a local factory, and their use for the first time, yesterday, was the occasion of a special service. Rev. W. C. MacIntyre, the pastor, was the speaker in the forenoon and Rev. H. D. Marr, of Calgary, occupied the pulpit in the evening, each giving a most earnest address. There was also special music by the choir, which is under the leadership of Mr. Justin Gilchrist, and solos were sung by Miss Edith Edwards and Mrs. D. Day. A gratifying feature lies in the fact that the entire expense has been fully covered by personal subscription, which is taken to indicate increasing interest in the cause.

PIONEER EMPLOYEE OF HUDSON'S BAY CO. DIES AT RIPE AGE

Matthew Botterill, a pioneer employee of the Hudson's Bay Company in its early days in this city, died on Saturday morning at the ripe age of ninety years. The late Mr. Botterill was a native of Westport, Yorkshire, England. He came to Victoria in 1860 and was in charge of the Hudson's Bay Company butcher shop for a year before entering in business for himself on the present site of Weller Bros' store. In 1864 he entered into partnership with Fred Reynolds, and for ten years conducted a meat business at the corner of Douglas and Yates Streets.

Calgary and Edmonton Play Here Next Week

Exhibition Games Arranged With Local Club; Blankenship Grooming Squad For Clashes With Colored Giants This Week; Three More Players Reported; Church Appears In Holdout Role; Team Shaping Up Well.

Ball fans are advised to jot down April 27 and April 29 on their mental blackboards, as on those days games are to be played between the Victoria pennant-chasers and the Calgary and Edmonton clubs. Manager Blankenship announced this morning that he had arranged for these exhibition games, which would probably complete the pre-season series.

With the arranging of the Calgary and Edmonton games the local ball fans will have a chance to see their pets in action in four real ball tussles. The first of the try-outs will happen on Wednesday, when the Colored Giants perform at the Stadium. The dark boys will also show their wares on Thursday, April 27, and the Edmonton boys will hold the stage on Friday, April 29. Both these games will be good drawing cards, as much rivalry exists between the Pacific International League and the Western Canada League. Each circuit figures it is superior than the other and as there is no post-season series, the exhibition games are the only available means for settling the argument.

Settle Old Argument.
The Calgary club will play here on Wednesday, April 27, and the Edmonton boys will hold the stage on Friday, April 29. Both these games will be good drawing cards, as much rivalry exists between the Pacific International League and the Western Canada League. Each circuit figures it is superior than the other and as there is no post-season series, the exhibition games are the only available means for settling the argument.

Manager Blankenship had a load lifted off his mind yesterday when he learned that both his catchers, Rego and Anfinson, would be here before the middle of next week. Catcher Rego is now on his way, and will drop into the training camp either to-day or to-morrow. Rego comes from the Los Angeles club, of the Pacific Coast League, and is in the shape of having been working out in the South for the past six weeks.

Anfinson Here Next Week.
"Abe" Anfinson, the stocky lad who caught for Tacoma last year, and who is still playing in the San Francisco club in the Coast League, will leave the Golden Gate next Sunday for Victoria. Manager Charley Graham, of the Frisco club, wired Blankenship yesterday that he would dispatch Anfinson on Sunday next. This will bring the catcher to Victoria in time for the game against the Calgary Club. Victoria is extremely lucky in the ability of Rego and Anfinson. Both men are brilliant receivers, and can hammer the old pill for a good 300.

Church Goes Elsewhere.
It begins to look as if Jimmy Church will not come to the Victoria team. Jimmy, who is a first-string catcher, was wired to leave the Victoria team a week ago, but Jimmy failed to pick it up in San Francisco, and yesterday news came through that he had joined a Southern club. Blankenship, who is counting on Church, and figured that he could make a good second-baseman out of him, but he will not do any worrying if Jimmy takes it into his head to stay down South.

"I'd like to see Church come up as I believe he has the making of a good ball player, but if we can replace a man like Carter Elliott I guess we can replace Church," remarked Blankenship.

After one has looked over the array of infielders which Blankenship has, it might be lead to believe that Victoria will not suffer if Church fails to report. Cliff has a nifty bunch of young infielders who would make Jimmy hustle to land a place.

Players Arrive.
The Victoria squad is rapidly being whittled into shape. Art Murphy, the sensational young first-baseman who started with Spokane last season, Earl Gatewood and Easter arrived last night, and turned out at the ball park this morning for their first work-out. All the men are in good shape, and are keen to get back into harness. Murphy is practically a certainty for first base, and Easter will be used as a pitcher. Gatewood will have to do some hustling if he wants to land a berth in the outfield with such fine gardeners as

Heavy Batting Features Opening Week in Majors

New York, April 18.—Heavy batting featured the opening series of the major leagues baseball season. Half of the teams averaging better than ten hits a game, while in 14 contests the opposing teams ran up a total of ten or more runs.

The first shutout of the season was pitched yesterday by Carl Mays, of the New York Americans, who held Boston to four hits.

The pitching staffs of both the Cleveland American world champions and the Brooklyn Nationals, their 1920 world series opponents, fell before the batting of the St. Louis Browns and Boston Braves, respectively. The Indian batters did good work with the stick, however, and enabled their pitchers to get an even break, but Brooklyn received a setback dropping four games out of five to a team that finished next to last in 1920.

Tigers and White Sox Even.
Two other American League series Washington-Boston and Detroit-Chicago—also were divided evenly. The Senators and Red Sox took turns pounding each other's pitchers. The Tigers and White Sox tied even as to runs and hits.

Kelly Has Two Homers.
Babe Ruth, in making his first home run Saturday, got off to a two-weeks' better start than last year when he began his record-breaking run of 54 on May 1. Kelly, of the New York Giants, with two home runs to his credit, is a step ahead of the home run champion.

Some Slugging.
New York and Philadelphia had a total of 46 runs and 83 hits in the three games, of which the Giants took two. Mays showed good form against the Cardinals on opening day. The Cubs hit effectively while the Cardinals' attack was weak.

Mets Will Try to Bring Football Title to City

Defeated Wests By One Goal on Saturday and Won Jackson Cup and Right to Meet Mainland Champions Here This Week-End For B. C. Honors; Little to Choose Between Finalists In Jackson Cup Series.

To the Metropolis football team goes the honor of representing Victoria in the series for the McBride Shield, emblematic of the soccer championship of the Province. The Mets won the right to enter this important competition through defeating Victoria Wests by one goal to nothing at the Royal Athletic Park on Saturday afternoon.

By their victory the Mets captured the Jackson Cup, which is a trophy designating city honors. This is the second cup won by the Mets this Winter. They captured the city senior league, which finished last December. By a strange coincidence the Mets were forced to play in each final game with the Wests and there proves to be little to choose between the pair.

Play Vancouver Saturday.
The Mets will meet the St. Andrew's team, champions of the Mainland League, at the Royal Athletic Park on Saturday afternoon. The Vancouver eleven has a splendid record and the Mets will have a difficult task on their hands to keep control of the ball. The Mets did not win the Victoria title in the classic by defeating Nanaimo one to nothing on Saturday last.

Johnson and Mays Show Great Form.
Noted Walter Snubbed Philadelphia, While Carl Shut-out Red Sox.

American League.
Washington, April 18.—Walter Johnson was highly effective in the pitcher's box yesterday and won the first game of the series from the Athletics, 2 to 1.

INDIANS AND TIGERS
IDLE FOR THIS WEEK
Wretched Weather Conditions in East Break Up Most Big League Games

DETROIT, April 17.—Navy Field was covered with snow two inches deep and indications that none of the games of the series between Detroit and Cleveland will be played this week. The snowfall began late Saturday night and continued through yesterday afternoon, postponement of the opening game with Cleveland being necessary to restore the field to playing condition. The Tigers have played but two games, one of them in a steady drizzle of rain, since the season opened.

Other games scheduled in the American League for to-day and forced to be called off are as follows: Cleveland-Detroit game postponed—field covered with snow. Philadelphia-Washington game postponed—cold weather. Boston-New York game postponed—wet grounds.

National League.
Boston-New York game postponed—rain. Brooklyn-Philadelphia game postponed—wet grounds.

CUMBERLAND TO PLAY FOR M'BRIDE SHIELD
Nanaimo, April 18.—Cumberland, soccer champions, not only captured the Brackman-Ker Cup, but went into the finals of the McBride Shield competition by defeating Nanaimo by a score of 1 to 0 here on Saturday. The game lacked the pep of a championship battle, neither team displaying anything sensational. Although Cumberland won the goal with a fluke, Nanaimo had the best of the play, but their shooting was faulty.

Three thousand fans present had little opportunity to voice their feelings, for the game was slow from start to finish. Home registered the visitors' goal.

STANFORD LOST ALL
Stanford University, Cal., April 18.—Three athletic teams from the University of California yesterday invaded the campus of their traditional rival, Stanford University, and won three major contests in baseball, track and tennis.

In the morning the Bear tennis players made a sweep in the matches against Stanford, and in the afternoon the blue and gold track team defeated Stanford 65-2-3 to 45-1-3, while the Bear baseball team made it three straight over Stanford by winning 11 to 0. The track and baseball contests were held during a rain.

"THE OLD SWIMMIN' HOLE" AT ROYAL

Old Home Poem Gives Chas. Ray Great Chance

Charles Ray, the popular screen star, will be seen at this week at the Royal Victoria Theatre in "The Old Swimmin' Hole." It is said to be one of the most appealing pictures in which he has yet appeared and to call forth more laughs and tears to the reel than any other of his past successes.

The play was adapted for the screen by Bernard McConville and directed by Joseph De Grasse. It

AMUSEMENTS TO-DAY

Royal—"Old Swimmin' Hole."
Dominion—"The Witching Hour."
Pantages—"The Chicken in the Case."
Columbia—"That Girl Montana."
Variety—"The Furnace."
Romano—"The Woman God Sent."
Princess—"Three Twins."
Cabaret—"Winter Garden."

is a First National attraction presented by Arthur Kane. The cast includes such well-known players as James Gordon, Blanche Rose, Laura La Plante, Marjorie Prevost,

Lincoln Stedman and Lon Poff. Riley's verse is interpreted with such artistry as to both charm the thousands of admirers of the Hoosier poet and win new converts to his ballads of boyhood's happy days.

From the opening scene to the close the story is brimful of heart interest. Charles Ray, as Ezra is "just plain boy," wholesome but mischievous. He would rather fish and spend his time at the old swimmin' hole than study. He loves Myrtle, the flirtatious belle of the country school, but after bringing him to his knees and robbing him of all his treasures she flits him for his best friend, "Skinny." However, there is happiness awaiting him in the loving arms of the ever faithful Esther. Ezra is so busy falling in and out of scrapes that it is a wonder that he finds time for sweethearts.

It is skillfully directed and so wonderfully acted as to obviate the necessity for a single sub-title. It steals into the heart of the audience until the breath of new mown hay seems to pervade the darkened theatre and the audience are wafted back on the wings of memory to their own school days. The play has received most enthusiastic notices wherever shown and will undoubtedly repeat its success at the Royal Victoria Theatre.

ELLIOTT DEXTER IN NOTABLE ROLE

"The Witching Hour" Will Be Presented at Dominion

Elliott Dexter, for several years famous leading man in Cecil B. De Mille productions, was specially engaged by William D. Taylor to play the leading role of "Jack Brookfield" in "The Witching Hour," a new Paramount picture which comes to the Dominion Theatre this week.

"Jack Brookfield" in "The Witching Hour" is a part made to order for the cultured, restrained art of Mr. Dexter. It is believed that this interpretation will stand as the greatest of all his screen and stage work. As the man of strong will he has an unusual opportunity.

To support Mr. Dexter an exceptional cast has been chosen. Included are Mary Alden, Winter Hall, Ruth Renick, Robert Cain, Edward Sutherland, Fred Turner, Genevieve Blinn, Charles West, L. M. Wells, Clarence Geldart and Jim Blackwell. Julia Crawford Ivers wrote the scenario while James Van Trees is responsible for the photography.

A picture that makes you think; that grips your attention from the first reel and holds it without a break till the final fade-out—that is "The Witching Hour." It is a smooth, even vehicle that puts over powerfully the message that thoughts are actual forces. Elliott Dexter as "Jack Brookfield" gives an impersonation quite different from that of John Mason, who created the role on the stage, but one equally impressive. The rest of the cast is excellent and supports Mr. Dexter splendidly in the difficult action of the drama.

NEW PANTAGES FILM IS BIG LAUGH-MAKER

"The Chicken in the Case" Brings Owen Moore

Owen Moore and "The Chicken in the Case." That will be the comedy combination on view at Pantages to-day and to-morrow, so Mr. and Mrs. Screen Fan, if you have smiles to spare, prepare to smile them then.

In his latest Selznick Picture Mr. Moore has been provided with another type of screen character, and it is prophesied that his role of Steve Perkins will be long remembered as the funniest thing he has ever done.

As Steve Perkins, Owen Moore tries to pass off the wife of his pal, Percy Jones, as his own newly acquired bride, and thus apparently fulfill the condition pertaining to acquiring his inheritance. The complications arise one after another in rapid succession until the tempo of the farce is as sharp and snappy as the fire of a machine gun. Owen Moore lives up to his reputation as "the serious comedian," and the more serious he appears, and the more the spectators laughed.

"The Chicken in the Case" is one of those very rare birds, a genuine screen comedy, providing its fun by the skill and originality of its comedy situations and never crossing the dividing line which is the frontier of "slapstick."

Katherine Perry might be said to portray the title role. She is very easy to look upon and one can readily believe that Steve Perkins would have gone through many more reels of embarrassing situations in order to make her the real Mrs. Perkins. No one could blame Steve either for putting realism into the role of the pseudo husband of Teddy Sampson, who incidentally has a lot more than mere good looks to recommend her for screen honors.

The balance of the cast has been well selected and the entire production, which was both written and directed by Victor Heerman, is well worth an evening of any one's time.

Victor Heerman, in addition to being the author of the story, is also the director of the picture, and it is claimed that "The Chicken in the Case" will place him in the front ranks of comedy producers.

STORY OF BORDER SHOWN AT COLUMBIA

Blanche Sweet Stars in "That Girl Montana"

Montana—a name reminiscent of the old frontier—of cattle wars, of gold stampedes, of outlaws and grim vigilantes, is the locale for "That Girl Montana" the Jesse D. Hampton-Pathe feature in which Blanche Sweet is starred at the Columbia Theatre this week.

"That Girl Montana," adapted from the novel by Marsh Ellis Ryan tells the romantic story of a girl who had been forced by a cruel father to wear boy's clothes and be his companion in robberies and at last cheating.

When she finally escapes his evil influence, she struggles to live down

"THE OLD SWIMMIN' HOLE"

Directed by Joseph De Grasse

"Come On In!
The Water's Fine!"
And So Is the Fun

Oh! the old swimmin' hole! When you last saw the place
The scene was all changed like the change in your face:
The bridge of the railroad now crosses the spot
Where the old divin' log lays sunk and forgot.

But you can go back to the days, all too few,
When the old swimmin' hole was the whole world to you.
It's here with its ripples and sycamore tree,
And Charlie Ray's you—just as you uster be.

SELZNICK SPECIAL OCCUPIES ROMANO

"The Woman God Sent" Will Be Three-Day Feature

Lovely woman, charming enough when a creature of the boudoir and drawing room, can be still more interesting when she invades the precincts of man and battles with him on his own ground.

This is shown conclusively in the new Selznick special, "The Woman God Sent," featuring Zena Keefe and Joe King, which is to be shown at the Romano Theatre for three days beginning to-day. The story is by Sophie Irene Loeb, and was adapted and directed by Larry Trimble. It is a deep drama, with a touching love current running through a picture of industrial struggle and political manipulation.

Love, politics, strife, intrigue, mystery and a thrilling denouement—all these contribute to make a situation in which every emotion of the audience is played upon—and responds.

She is a wonder woman, this Margaret Manning, portrayed by Zena Keefe. Born under a cloud, losing her mother in her infancy, not knowing even the name of her father, she overcomes all the obstacles of poverty, prejudice and ignorance. She triumphs over cunning and rapacity, beats intriguing lobbyists at Washington, and wins the man she loves.

TWO CANADIANS SCORE TRIUMPH

New York Critics Pay Tribute to Margaret Anglin and Evelyn MacNiven

(By Ben Deacon, Canadian Press Correspondent)

New York, April 18.—A Canadian actress of high attainments and wide reputation and a Canadian singer who is just setting forth on a career that gives promise of winning for her a place in the lengthy list of noted artists who have hailed from the Dominion were featured in the week's news. Margaret Anglin's performance of Clytemnestra in Euripides' "Iphigenia in Aulis" was undoubtedly the outstanding dramatic feature of the week, while a musical event which attracted considerable attention was the recital given at Aeolian Hall by Evelyn MacNiven, a young Canadian contralto.

"Iphigenia in Aulis" was given at the Manhattan Opera House. It was a revival of the production made in California in 1915 and was on a particularly elaborate scale—rather too elaborate in the opinion of several of the critics. A special musical setting had been composed for it by Walter Damroch, and the famous conductor of the New York Symphony himself wielded the baton. The event marked the end of Mr. Damroch's service as conductor of the Oratorio Society.

Miss Anglin appears to have overshadowed Mr. Damroch despite the fact that it really was his party.

The consensus of opinion was that her wonderful acting was the outstanding feature of the production. The Damroch music won only faint praise, but Miss Anglin's Clytemnestra was hailed by practically all of the critics as a thing that will long live in memory.

New York's aptitude for overdoing things was illustrated in this production. The choruses were so elaborate, and so bedecked with frills that they very nearly obscured the play itself. The chorus arrangements were in the hands of Maurice Brown, who has fitted out several other big classic productions in like manner. His love for the spectacular brought the wrath of several of the critics upon his head.

An "Abomination" "Mr. Brown's way of bedecking and pretty-flying these austere

Greek tragedies is nothing short of an abomination," declared Alexander Woolcott of "The Times." "He fills his stage with a weaving and writhing Delsartian chorus that is like festooning a severe Greek temple with chrysanthemums. These goings on recall many strange and unrelated things, such as amateur tableaux out in Kansas City in the silded age of a strawberry ice cream soda, and the cover of 'Heart and Flowers'."

During the course of the evening Miss Anglin was badly shaken when the horses drawing a chariot into which she was about to step started too soon, throwing her to the floor. Other members of the cast rushed to her assistance, but she pluckily climbed into the chariot and continued the performance.

Predict Brilliant Career

Miss MacNiven's recital marked her New York debut. She has sung here at a number of musicals given by the Canadian Club but this week's concert was her first appearance before the general public here. She possesses a remarkably fine voice, of beautiful quality, wide range, and a fine dramatic power. Added to this she has remarkably clear diction and a high degree of intelligence and artistry which several of the local musical critics predict is certain to assure her a brilliant future. Her programme included airs by Handel, Scarlatti, and Marcello, a group of French songs, a Rachmaninoff group, and a group by American composers. She was probably at her best in the more emotional numbers which gave opportunity for display of her splendidly flexible tone quality, notably in D'Indy's "Lied Maritime" and Rachmaninoff's "Floods of Spring." She was given a particularly encouraging reception by an audience which filled Aeolian Hall and was obliged to respond to frequent demands for encore numbers. Richard Hageman, the noted teacher and conductor, was her accompanist.

To Tour Canada

Miss MacNiven is a daughter of Dr. Malcolm MacNiven, a vice-president of the Canadian Club, and was born in Chatham, Ont. She has studied here under Hageman and Julius Meyer. During the war she frequently gave her services to the Canadian Club for the purpose of assisting in raising funds for war purposes. She is contemplating a tour of Canada in the fall.

"Nemesis," a new play by Augustus Thomas, was produced at the Hudson Theatre this week. It is a triangular affair, with the customary erring wife, trusting husband and artist friend. There is even a scene in a studio, so, evidently, Mr. Thomas did not bank on novelty to carry the play to success. The first two acts are mainly dialogue with swift action at the end of the play when the husband strangles the wife and ends up in Sing Sing.

FATTY ARBUCKLE HAS BUSY DAY ON VISIT TO CLEVELAND

"Fatty" Arbuckle spent one of the busiest days of his career on a recent visit to Cleveland. "Fatty" was on his way from New York to the Coast and at Mr. Loew's request stopped off for one day in Cleveland. He visited Loew's Studio, where his picture, "The Circus," is being shown, attended a luncheon in his honor as guest of the Rotary Club, attended the Joe Burman-Joe Lynch fight and acted as referee at a preliminary between two ten-year-old colored boys, and caught his wife late at night, going on his way rejoicing.

HAS MADE A NEW MAN OF TINGLEY

Vancouver Citizen Gains 15 Pounds and Feels Fine Every Way Since Taking Tanlac

"I finished my last bottle of Tanlac on April 26, 1920, and the medicine fixed me up so fine that I have been in perfect health ever since," said John M. Tingley, well known farmer of Hopewell, Albert Co., N. B., while visiting his sister at 571 55th Ave. E., Vancouver.

"Although I'm sixty-four years of age I don't feel a day over fifty, and I can do as much work in a day now as I ever could. However, things were entirely different with me before I got Tanlac. For eight years I was in a miserable condition, and I couldn't find a thing to help me. My appetite was so poor I just had to force myself to eat, and my stomach was so disordered that every thing disagreed with me. Why, if I had eaten some of the things then that I do now I believe it would have laid me out completely. After every meal I had such cramping pains that it seemed like they would kill me, and words can't express the agony I was in. I had a terrible burning in my chest, and my heart palpitated and jumped so bad that I just had to gasp for breath. Many times I have been out in the field at work when such terrible spells of nervousness and weakness would come over me that I would have to drop everything and go home, and sometimes I would have to lie down wherever I happened to be. I could scarcely sleep at night, and I don't think there was a minute I didn't suffer.

"Well, five bottles of Tanlac have built me up fifteen pounds in weight and made a new man of me. I eat good and hearty at every meal now of everything I want, and it doesn't cause me a particle of trouble. When my doctor saw what Tanlac was doing for me he looked surprised, and told me to keep right on with the medicine. The harder I work the better I sleep, and I feel fine in every way. I think Tanlac is a blessing to humanity, and I wanted my statement printed everywhere for the benefit of others suffering like I did." (Adv.)

"The Chicken in the Case"

MOTION PICTURES CHANGE LIFE HABITS

Time Element Is Big Factor in Attracting Spectators to the Movie Theatres

Here are three things that you have not, and one that you have stopped to think of the extent to which the motion picture has influenced your life—meaning the hours of your life and the conversation which fill those same hours. A report issued recently tells interestingly of how the cinema has changed the hours of amusement and how it has otherwise affected the time which formerly hung heavily on some people's hands.

The report begins by pointing out that the motion picture is heavily attended in the afternoon as well as in the evening—which means that you, or your wife, or your husband, or your husband's sister, or some other relative or friend or acquaintance drops casually into a movie theatre at 2 or 3 p.m. and enjoys for an hour or two the performance.

Not so long ago there were only a few vaudeville houses to which you could have repaired of an afternoon and providing you had that time to spare. And certainly there were not enough vaudeville theatres to house the huge throngs which attend the movie matinees of the day! Or, for that matter, the large crowds which, in many of the working districts, spend part of their lunch hour watching the film.

Two Shows in Evening

Still another time element in the influence which the movie has had lies in the two evening shows which are now usually given—the first from 7 to 9, and the second from 9 to 11. In "the good old days" a theatre-going night was something of an event, and people did not expect to be home before the clock struck the mystic tones of midnight. Now, however, many go to the movies, have a full two hours of entertainment, and are able to turn their faces homeward at a little after 9 o'clock. And, further, the audiences are nearer to home than in the days when theatre-going meant going "down-town."

Turning to another influence of pictures, the report declares that the severest critic of the motion picture cannot deny that it has accelerated conversation. This is true—yes, true. People do talk a great deal about the movies, the stars, the leading players, the extras, the directors, the press agents, all the other personnel and paraphernalia of the amazing industry. What did people do with their evenings before the cinema came? Did they talk about it? And, furthermore, what did they talk about during the evening? There was no Charlie Chaplin, no Mabel Normand to discuss. No Will Rogers to propound, and phrases which have become common property as a result of the growth in popularity of the new medium.

Have you seen Will Rogers in "Quile of Women"? Did you see "Earthbound"? Don't you like Emilient Authors' pictures? Some were crazy about "Scratch My Back." Movie terms. Do you realize how your vocabulary? Do you realize that during the past decade a whole new set of phrases has become common property as a result of the growth in popularity of the new medium?

New Language Created

Who doesn't know the meaning of "close-up"? Of "scenario"? Of "shooting a scene"? Of—but one could go on a long, long way, which would be senseless. The words and phrases quoted are sufficient except, perhaps, to mention in addition to frequent facetious use of other words and phrases which the movies have used too frequently, such as "The Next Day," "Ten Years Later."

All of which evidence is proof of the tremendous appeal which the movie has made to the imagination of the public—not merely as amusement, but as a force, changing the hours of entertainment, creating a host of stars whose personalities are known and loved by the public, and successfully foisting upon the language a new and virile terminology, full apt words and phrasing, passing into the common use. This is one of the greatest victories of the motion picture and demonstrates that it has a hold on the masses and classes which is permanent and secure, since its appeal is universal and established in the hearts and on the tongue of the country.

PRESENT PHOTOPLAY SHOWING INTERIOR OF FASHIONABLE CHURCH

Stupendous in the size and expense of its scenes, "The Furnace," William D. Taylor's Special Production for Realart, undoubtedly will stand as the year's most pretentious photoplay. The story is by the sensational anonymous author, "Pan," and is a startling expose of modern social conditions. Gay Monte Carlo, an aeroplane honeymoon, lawn parties, fashionable masquerades, a wedding patterned on that of Princess Patricia, a great landslide—all add their quota of expense in making "The Furnace" one of the most elaborate photoplays ever filmed.

The play, which will be screened at the Variety on next week, opens with the marriage of Antony Bond, a Canadian millionaire, to Polly Valance, a musical comedy star. The wedding is carried out in exact duplication of the wedding of Princess Patricia of Connaught was married to a commander of the British navy. Both interior and exterior sets were built to simulate a fashionable church in London.

So realistic were the two sets that an English baronet, Sir George Marks, M. P., visiting the Realart studio, personally congratulated William D. Taylor on the marvelous likeness.

The interior of the church as built was 125 feet wide, 250 feet long and thirty feet high. The altar was sixty feet wide.

Alice Lake, star of Metro's forthcoming production of "Uncharted Seas," is about to become a member of Hollywood's society of householders. For the little player is seeking a home in which to establish herself and her parents, who recently arrived in Los Angeles to visit her. She has found nothing to suit her requirements as yet, but leans to the bungalow type that she has so frequently adorned in her picture existence.

REVIEWED HISTORY
AND GROWTH OF MUSIC

Interesting Address by Harry Charlesworth, Illustrated by Selections

A delightful programme was generously provided by the Young People's Forum of Metropolitan Church on Monday evening last at the hands of Harry Charlesworth, the popular local educationalist and musician. Mr. Charlesworth dealt in masterly and pleasing fashion with his subject, namely, "Music, its History and Development," surveying the whole gamut of musical effort from the beginning in its barbaric form of mere sounds, up through the various stages of improvement, and indicating how birds and animals understand the different sounds and cries they make. He placed particular emphasis upon the melody of folk-songs of yore, the equal of which it is hard to find, he said, in modern compositions and played a number of these upon the piano.

The speaker then set forth the basic truths that music is an expression of the emotions and not the intellect, that it comes from within as otherwise there would be little pleasure in it; and that all music is built on pattern and design. Two points worth remembering were that melody and rhythm constitute music and that the dominating feature is that of contrast, by means of which the different emotions are expressed. In just the proper degree throughout a composition, similarly as our own lives are constituted, said the speaker, in that all music must have its balancing emotion of joy.

Continuing in this interesting

"The Three Twins"

Mr. Charlesworth mentioned some of the comparisons between literature and two or three notes in music representing a word. Phrases, sentences, themes and subjects are in both and we also have descriptive stories and piano-forte pieces. The melody of words corresponds to the same thing in musical bars and there is metre in poetry as well as in music. In conclusion the speaker stated that there are four kinds of music, namely, vocal with no accompaniment; instrumental; accompanied vocal music; and a development of the present day combining vocal and instrumental music. Other characteristic features are tempo and different times, accent and rhythm and the last but most important of all is tone or color; which, he said, can only be obtained from an orchestra or an organ, each instrument giving tone color in its proper place and relation to the setting.

Mr. Charlesworth then proceeded to render several compositions, to the delight of the audience, illustrating the points made, and Miss Christie sang very sweetly four songs in succession in which the voice and accompaniment take turns at being chiefly heard. Jack Smith assisted the speaker in rendering in brilliant fashion a number of duets giving examples of waltzes, military marches and descriptive pieces, and by special request Mr. Charlesworth rendered three compositions of his own, the pretty imitation of birds being the result of his listening to the song of the feathered folk, and a waltz and two-step which had their origin after the author had witnessed an exhibition of waiting on skates. Mr.

Charlesworth's closing number was the Vesper Hymn. A hearty vote of thanks was tendered him and his party for the instructive and delightful programme provided.

KEATING'S KILLS

Empress of Asia Sets Up New Time For Pacific Ocean

C. P. O. S. Liner Made Port Last Night 8 Days 21 Hours and 38 Minutes Out From Yokohama, Averaging 20 Knots and Smashing Former Record of Russia By 7 Hours.

A new steaming record for the Pacific Ocean was established by the Canadian Pacific Ocean Services liner Empress of Asia, which docked here last night from the Orient. The actual steaming time of the Empress of Asia from Yokohama to Victoria was 8 days 21 hours and 38 minutes. The nearest approach to the Asia's new time was the pre-war record of the sister liner, Empress of Russia, of 9 days 3 hours.

Twenty Knots.

The Empress of Asia averaged 20 knots for the greater part of the voyage. The magnificent performance of the big C. P. O. S.

liner is one that will stand for as long as there is nothing afloat on the Pacific, outside of the crack passenger ships flying the checkered house flag able to touch the record established by the Asia.

The time made by the Asia includes the extra day known as "Meridian Day," with seven hours deducted from the twenty-four to offset the difference in time.

All aboard the Asia were highly pleased with the fast passage. Commander A. J. Halley, R.N.R., and Chief Engineer James Lamb, are confident that the ship can do even better. In discussing the speedy passage, Commander Halley remarked that it was only when the ship was four days out from Yokohama that the decision was reached to try to make Victoria Sunday night. Instead of Monday morning, as is customary with the C. P. O. S. liners.

Up to that time the ship had been jogging along at a fair speed. When she was opened up the splendid ship easily showed that she was capable of better than twenty knots.

Could Have Done Better.

"If we had started to speed up immediately after leaving Yokohama," said Commander Halley, "we could have made quarantine by noon."

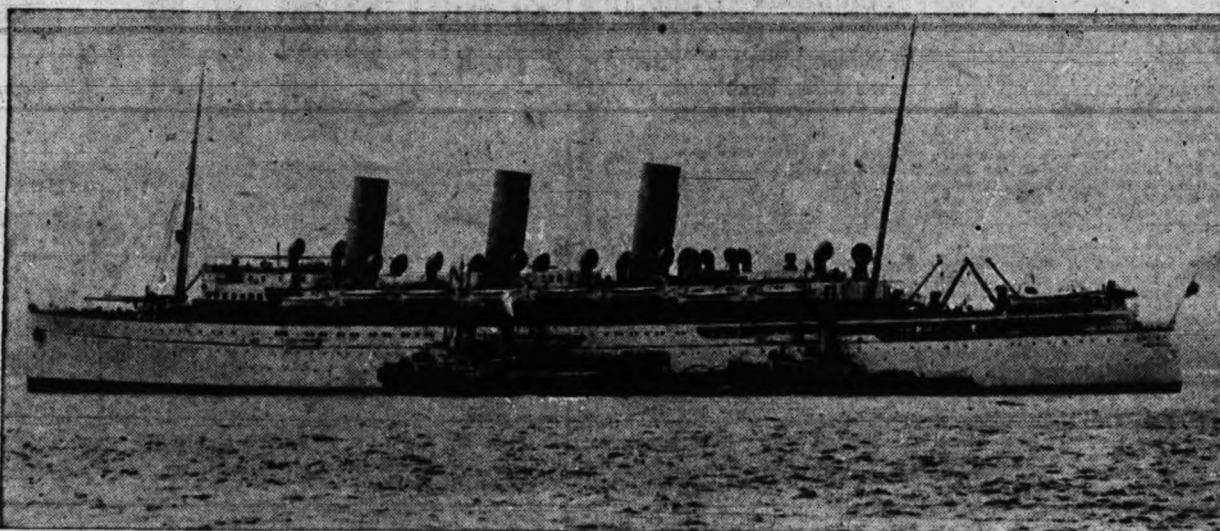

The Asia reached the William Head quarantine station at 6 p. m. and came alongside the wharf here about 8 o'clock.

While in the Orient the Empress of Asia was drydocked and given her annual overhauling. She was in excellent shape for a speedy passage.

A little fog was experienced, but on the whole the weather was perfect. Now that the previous steaming record of the Empress of Russia has been beaten by the Empress of Asia by seven hours, some keen rivalry may be anticipated between these crack vessels.

By the latest performance of the

Holds Laurels as Speediest Craft on Pacific

R. M. S. EMPRESS OF ASIA

ALABAMA MARU WILL ARRIVE TO-MORROW

Inbound from the Orient, the Osaka Shosen Kaisha liner Alabama Maru, which was expected to make quarantine to-night, will not dock until to-morrow morning, according to the latest word received from the ship.

The liner carries a large list of Japanese passengers and has 300 tons of Oriental cargo for British Columbia.

Empress of Asia, Canada has been brought within eight and a half days of Japan.

The distance between Yokohama and Victoria is 4,200 miles.

Rose to Occasion.

The engine-room crew of the Empress of Asia rose to the occasion when the word went below that an attempt was to be made to make quarantine Sunday night. The engineers were imbued with enthusiasm at the prospect of a record-breaking run, and the stokehold crews went on double shifts.

The Empress of Asia brought in 300 saloon passengers, 60 second cabin, and 850, mostly Chinese, in the steerage. Included in the liner's cargo was a valuable shipment of raw silk, 2,000 tons of general freight for overland shipment, and freight for coastwise points.

William Davidson, of Hongkong, master of the ship, with the Phoenix, a Whangpoo, died at sea April 12, the body being brought to Victoria for burial.

The liner got away at 10 o'clock last night for Vancouver.

DECLARES CHINA WILL NEVER REVERT TO MONARCHISM

Dr. Wang Chung-hui, Delegate Conference, Says Restoration Impossible

Dr. Wang Chung-hui, President of the Court of Cassation at Peking, was a passenger by the liner Empress of Asia, enroute from China to Geneva as one of the Chinese delegates to the Revision Committee Conference of the League of Nations, which meets in May and June.

Dr. Wang says that no monarchical movement will ever succeed in China. "China will permanently remain a republic," he says. "Many nations have successfully gone from the monarchy to the republican form of government, but history shows that it is virtually impossible to reverse the process. A republic stands for principles; a monarchy is based on reverence of a single ruler. Once this reverence is deposited, it is impossible to restore effectively the lost prerogative. One might as well hope to restore the monarchy in China as to piece together a broken plate or a shattered vase."

False Rumors.

Dr. Wang, commenting upon the recent rumors persistently circulated in China and elsewhere that General

ASIA RESPLENDENT IN HER NEW COLORS

On her arrival from the Orient last night the liner Empress of Asia looked resplendent in her new colors. The new "color scheme" adopted by the C. P. O. S. for its ocean liners on the Pacific is particularly effective.

The hull of the Asia is painted black, with green boot-topping, dazzying white superstructure and buff funnels.

All the ships of the fleet on this ocean will be so painted. The Empress of Japan was the first liner to arrive on this coast under the new colors.

The C. P. O. S. boats are now returning here after the customary annual overhauling at Hongkong.

Chang Tuo-Lin, Tuchun of Mukden, is planning to restore the monarchy, with himself as guardian of the Boy Emperor, said that the report is merely the fabrication of disappointed politicians of the fallen dynasty.

"Since the first revolution some eleven years ago," added Dr. Wang, "plots have been concocted more than once by sympathizers with the deposed Manchu regime. However, China is now thoroughly tired of its political kaleidoscope of the past and wants no further coup, for every political change has inevitably resulted in a period of suffering for the nation, not to speak of the exorbitant taxation forced on the inhabitants by the contending political factions. This is a most deplorable condition in our modern history. The

state of affairs must cease. All the people in China—politicians, merchants, farmers and students—are united against further movements aimed at political change. What they want is security of the nation's life and they are as one man to attain this object.

"There may from time to time be more attempts on the part of the sympathizers with the former dynasty to restore the monarchy, but it is plain they will all end in a fiasco. It is hard to attempt the restoration of a monarchy in China as for a bank which has just suffered a 'run' to rehabilitate its former credit."

Returned on Asia

Dr. Wang, who was one of the leaders of Chinese revolution of 1911, was first Minister for Foreign Affairs under Dr. Sun Yat Sen, when he became President of the National Provisional Government following the famous coup eleven years ago. Dr. Wang absorbed his republican ideas while a student in Yale University, and spared no efforts in fostering republican sentiment among his countrymen after his return home. Dr. Wang is a prominent judge, and because of his profound knowledge of international jurisprudence, was selected by the Chinese Government to represent his country at the Revision Committee Conference of the League of Nations.

The principal duty of the Revision Committee, representing ten nations, is to study and report on matters originally submitted by the Powers to be considered by the Supreme Council of the League of Nations.

Wider Opportunity.

Dr. Wang was closely in touch with the leading man in his country who reached here last night by the Empress of Asia, completing a tour of investigation in the Far East. "China is the country of the future," said G. M. Bosworth.

"If I were a young man I should go there. Its prospects are immense. It has enormous natural resources, and it already has developed a great manufacturing industry."

RETURNED ON ASIA

G. M. BOSWORTH

Chairman of the Canadian Pacific Ocean Services, Ltd., executive board, who reached here last night by the Empress of Asia, completing a tour of investigation in the Far East. "China is the country of the future," said G. M. Bosworth.

"If I were a young man I should go there. Its prospects are immense. It has enormous natural resources, and it already has developed a great manufacturing industry."

PRINCESS MAQUINNA HAS BEEN HAULED OUT AT YARROWS

C. P. R. Vessel Is Being Overhauled and Having Minor Repairs Effected

This forenoon the Canadian Pacific Railway steamship Princess Maquinna was hauled out on the marine ways at Yarrow's, Ltd., for hull cleaning and painting and minor repairs. The Maquinna will be in the hands of the Equimatt repair firm for about four days.

Stacks on Rupert.

The steamship Prince Rupert had her new funnels placed aboard on Saturday and for the major part has again assumed her original lines. The vessel was floated from the ways on Friday last and shifted to the Yarrow's wharf, where the funnels, each weighing about seven tons, were hoisted aboard and dropped into position by means of a derrick scow sent alongside.

The work was most expeditiously carried out, the funnels being installed in three hours.

Destroyers Away.

After being drydocked and overhauled at Yarrow's, Ltd., the Canadian destroyers Patriot and Patrician have cleared for Comox, following in the wake of the cruiser Aurora. The Patriot left Yarrow's at 11.30 a. m. Saturday for Macaulay Point to re-fuel, and the Patrician left the repair yards at 5 p. m. to re-fuel at the Imperial oil tanks before clearing for Comox.

FIRST TO MAKE ROUND THE WORLD VOYAGE

Two Local Cadets Have Record of Which Boys Will Be Envious

The arrival of the Canadian Importer at Auckland, New Zealand, on March 23, completes the trip around the world, the first ever made by a Canadian. Government freighter. This is interesting to Victorians, as the first two cadets to enter the C. G. M. M. Service left Victoria on the Canadian Importer, giving Victoria the credit of having the first cadets from the Dominion of Canada to circle the globe on a Canadian-built ship.

These cadets were supplied by the local organization of the Boy's Naval Brigade. The boys in question are

MARINE NOTES

The British freighter Eurymachus, of the Funnel Line, passed up to Vancouver this morning. She is from the United Kingdom via the Panama Canal and San Francisco.

The Harrison Direct Line steamship Statesman passed down the Straits to-day on her homeward voyage to the United Kingdom via San Francisco.

On her return trip to the Orient the liner Empress of Japan will sail from Vancouver at 2 o'clock to-morrow afternoon, and will touch at this port about 9 o'clock, clearing about an hour later for Yokohama.

The liner Africa Maru, of the O. S. K. fleet, is due to leave port to-morrow afternoon for the Orient.

The Canadian Importer left Vancouver for Australia on July 29 of last year, arriving in Sydney, September 4. After moving around the coast of Australia to the ports of Melbourne, Port Kemble, Newcastle and Geelong, sailing from Sydney for England via the Suez Canal and Mediterranean ports, arriving at London on December 24, sailing from London for St. John's, N.B., arriving at the latter port on January 29; sailing from St. John's for the Antipodes via the Panama Canal on February 17.

FLAMES MENACED LINER TATSUNO MARU AT SEATTLE

Fire Originated in No. 1 Hatch Among Cotton and Lumber Cargo

Seattle, April 18.—Fire which started in No. 1 hatch forward of the steamship, Tatsuno Maru of the Nippon Yusen Kaisha, shortly before 7 o'clock Saturday evening threatened to destroy the big vessel and was only placed under control after the city Fire Department had responded to two alarms.

The fire originated in a cotton and lumber cargo and was accompanied by dense clouds of smoke, which could be seen for several miles. The Tatsuno had a large quantity of cotton and lumber on board, which was damaged, according to representatives of the Nippon Yusen Kaisha.

The Tatsuno is a unit of the Nippon Yusen Kaisha's auxiliary service operating between Seattle and ports in China, Japan and the Philippines. Vessels of this service use the Great Northern dock while the company's big passenger liners are berthed at Port Commission's Smith Cove Pier No. 1.

Officers and members of the crew of the Tatsuno assisted the city Fire Department in fighting the flames.

CHINAMAN REMOVED
ON MAKING QUARANTINE

A Chinese passenger, reported to be suffering from chicken-pox, was removed from the liner Empress of Asia on arrival at William Head. The Chinaman will be held at the quarantine station for treatment.

PRINCESS MARY HAS FULL LIST FOR ALASKA

With all her cabins filled, the Canadian Pacific Railway steamship Princess Mary left Vancouver Saturday night for Skagway. Among her passengers were: Louis Schultz, a prominent Atlin citizen; J. Scotland and A. Rae of the engine-room staff of the steamer Nasutlin; Capt. D. McKay of the Tarahane; E. B. Barreau, general agent at Tanana; George Moir, second engineer of the Cascar; A. A. King, purser of the steamer Dawson; Captain M. Campbell of the steamer White Horse; Capt. W. Cowley, of the Nasutlin; and a crew of ten men for construction at Atlin Inn.

MADISON CYLINDER GRINDER

We have just installed a new Madison Cylinder Grinder, which is the latest and most up-to-date grinder on the market. This machine is being used by all the leading automobile and traction engine factories in Canada and the United States. When your cylinders get worn and your engine loses its power, let us grind the cylinders and fit in new pistons and rings, which will make them as good as new, besides the saving in gas and oil in a short time will more than pay for having the work done, to say nothing about the satisfaction you will get out of your engine.

TO SUBDIVIDE LARGE HUDSON'S BAY LAND HOLDINGS ON ISLAND

Company Plans to Sell Property at Colwood and Esquimalt

The Hudson's Bay Company intends to subdivide and sell several hundred acres of land at Colwood and another portion adjoining the new drydock site, according to an announcement made by H. F. Harman, Land Commissioner of the Company, who arrived in the city on Saturday. The plots will be from two to five acres in extent, he stated.

The Colwood property is on the Island Highway, just west of Parson's Bridge and extends back to the Millstream. It is part of the six hundred acres owned by the Company in this vicinity. Mr. Harman is unable to give the exact acreage to be subdivided, but he states that it will run into several hundred acres. The plots to be created, he believes, will be attractive for suburban homesites or poultry farms as the land is connected with the city by an excellent highway. The property is not far from the Colwood Golf Club.

Sell Land Near Dock Site.

The Company's land near the new Esquimalt dock site has been surveyed and will be placed on the market at attractive prices, Mr. Harman announced. The Company, he

said, was undertaking this development to supply the requirements of workmen engaged in the construction of the dock. The streets would be graded and water laid at the Company's expense, he added. This would involve a heavy outlay, he thought.

Should Revise Assessment.
"The time has arrived when the assessment of the City of Victoria should be revised," declared Mr. Harman. "The Company realizes," he said, "that most of the cities have assessed values that are an echo of the boom times, and which are out of all proportion to the fair value of the properties. Efforts have been made during the past year to have unreasonable assessments reduced, with success at practically every point where the Company has large holdings."

Selling Off Lands.
Pointing out that the Company had once held 7,000,000 acres of farm land on the prairies but that this amount had been reduced to 3,000,000 acres in accordance with the policy of selling off land holdings Mr. Harman stated: "The sale of farm lands has slackened, but there is a noticeable improvement in the sale of suburban homesites, this being particularly noticeable at strategic points leading to the northern oil fields. There has been an improvement in the demand for suburban acreage at Victoria, and several satisfactory sales have recently been consummated, with others in sight. An improvement is noted over conditions a year ago."

Prairie Conditions.
Victoria is not suffering any more from depression than other Canadian cities, said Mr. Harman, who thought that no marked change in conditions could be expected on the prairies before the fall harvest. The crop

SPECIAL SERVICE FOR ORANGEMEN

Impressive Turnout at St. James's Anglican Church; Splendid Music

St. James's Anglican Church, Quebec and St. John Street, was crowded to the doors last night for the special service in honor of the local Orangemen, who paraded to the church in regalia and were joined en route by the lady members of the Order. They made an imposing formation as they marched through the streets.

As the procession reached the church portals Percy Fletcher, M.A. Cantab, struck up the entry march from Eli by Costa. "The Magnificat" was by Battisill and the "Nunc Dimittis" by Bunnett. J. J. Matheson, who was in splendid voice, sang the beautiful baritone solo, "Beyond the Dawn," and the choir, which was in full attendance, sang "Sun of My Soul" by Turner, the soprano solo being taken by Mrs. W. F. Povah.

The congregation entered heartily into the singing of the well-known hymns selected for the occasion and including "Onward, Christian Soldiers," "Stand Up, Stand Up For Jesus," "Fight the Good Fight," and "Blest Be the Tie That Binds." The service was concluded with the singing of the National Anthem, and for the march out Mr. Fletcher played "Land of Hope and Glory" by Elgar.

THE TEA KETTLE

Tired of "eating out"? Just try TEA KETTLE.

Phone 4096. Cor. Douglas and View Streets. Miss M. Woolridge.

The Orangemen again formed outside the church, and marched along Quebec Street, and thence to their headquarters on Courtenay Street.

Upon entering the pulpit Rev. H. T. Archibald extended a very hearty welcome to the Orange Society. He complimented them on the fearless and consistent stand the powerful organization had taken in matters affecting the moral and spiritual welfare of the country, and stated that Canada had a great deal for which to thank the Orange Society. Battle had been silently and determinedly fought in the country's interests that few people outside the Society itself knew anything about.

Because the ideals of Orangemen opposed some of the practices and beliefs of others, it was claimed by some that an Orangeman was narrow-minded. It could not be said that a man who had the courage of his convictions and came out in the open to express them came within that category, he declared.

SOME NOTABLE VICTORIA STATUES

All Parts of Empire Have Raised Monuments to Illustrious Queen

The unveiling of the Queen Victoria statue, by the Governor-General of Canada is notable, not only in its historic significance in honor of the Queen in whose reign the city was founded, and after whom it is named, but also in the fact it introduces to this city the first piece of sculpture in a new country like British Columbia from the hand of a famous Old World sculptor like A. Bruce-Joy.

The Victoria era covers the period of modern British sculpture, and long before its close monuments of her late Majesty were rising in various parts of the Empire, notably in India, some of colossal dimensions. Sir Thomas Brock, Bertram Mackenno, John Tweed, Charles John Allen, John Hughes and Sir George Frampton, among living sculptors, have executed notable portrait figures, and others who turn to the subject as a fitting opportunity for their genius were Hope Pinker and Onslow Ford.

Sir Thomas Brock has a fine example at Cape Town, in front of the Parliament Buildings, and in Worcester, his native city, while Allen, a native of Blackburn, England, Tweed, whose work is widely scattered throughout the Empire, executed Victoria statues for Aden and Madras. Sir George Frampton prepared the Victoria memorials for Calcutta, Southport, St. Helen's, Newcastle-on-Tyne and Leeds.

Hughes has a memorial of the Queen in Dublin. The most famous memorial of all to Queen Victoria, that in front of Buckingham Palace, was designed by Sir Aston Webb.

Mr. Bruce-Joy has a long record of sculptural work to his credit. Like Brock he is a pupil of Foley, the celebrated sculptor, and inherits the touch of that master artist.

Among his works are the Gladstone statue in the Strand, London; three of John Bright, at Manchester, Birmingham and in the British House of Commons; Chief Justice Whitelaw, Lord Justice Fitzgibbon, and Dr. George Salmon, in St. Patrick's, Dublin, of which city he is a native; Oliver Heywood, at Manchester; Lord Frederick Cavendish, at Barrow-in-Furness; Alexander Whitley, and Christopher Bushnell, all at Liverpool; Lord Kelvin, at Belfast; Bishop Berkeley at Cloyne, Ireland; and the famous memorial to the Victoria Cross at Canterbury Cathedral, and many others. He has also executed a number of busts, both for British and American orders, including the Matthew Arnold bust in Westminster Abbey and the Chauncey Depew bust for the Lotus Club, New York City. He has also prepared a number of ideal works, the best known to the public being the representative group of famous players of various sports.

CELEBRATE BIRTHDAY OF PROTESTANTISM

Special References to Luther Anniversary Yesterday

Inspiring services were held yesterday at Grace English Lutheran Church, Blanshard Avenue and Queen's Avenue, in celebration of the 400th anniversary of the Diet of Worms. At the evening service the Rev. P. E. Baisler, B. D., had the undivided attention of a large audience during a rather lengthy discourse on "Luther and the Bible." Immediately preceding the address Luther's battle hymn, "A Mighty Fortress is Our God," was sung, and the preacher read the 46th Psalm.

By way of introduction attention was called to the fact that Luther, at the time of the Diet, had no intention of starting a church and that the \$9,000,000 Lutherans in the world today are not followers of Luther, but of Christ, the name "Lutheran" having been given the Mother Church of Protestantism in derision; that one of Luther's favorite verses of Scripture was the opening verse of the 115th Psalm: "Not unto us, O Lord, not unto us, but unto thy name give glory, for thy mercy, and for thy truth."

Luther's Influence.

After reviewing the writings of Luther, which caused him to be summoned to the Diet, the preacher pictured the Diet, presided over by the Emperor, Charles the Fifth, the most powerful ruler in the world at the time. There were present 207 men, six of the seven electors, two cardinals, two archbishops, eleven bishops, four abbots, and in the city there was probably the largest concourse of people that had gathered in any city in Germany in a century.

Luther courageously maintained his position that Pope and Church Councils had erred and contradicted themselves, and the only safe rule of faith and practice was the Word of God, said the preacher. Although excommunicated by the Church, condemned by the State, he continued by word and pen to preach and teach the infallible Word as the power of God unto salvation. For 25 years after the Diet he labored incessantly to make the Word effective in the lives of his fellowmen.

SO WHY WORRY?

The following verses were written by a boy of nine: Do not worry over trifles, though to you they may seem great. All your fretting will not help you, or your troubles dispart. If your day is dark and gloomy, and the sun is hid from view, Bravely smile and keep on smiling, and your friends will smile at you.

Happiness is so contagious, and a smile is never lost; Then why worry over trifles, though your heart seems tempest tossed? Therefore cheer on life's rough journey with an optimistic smile, and see the world is good to live in, and that living is worth while.

Write Us Today

For the way that brings prettier teeth

Do as millions have done—make this ten-day test. See how film removal beautifies the teeth. Learn how it makes a safer tooth. Brush your teeth in the modern way and watch all the good effects.

Film makes teeth dingy

That viscous film you feel is the teeth's chief enemy. Most tooth troubles are now traced to it. It clings to teeth, gets between the teeth and stays. Old brushing methods did not effectively combat it. So very few people have escaped discoloration and decay.

Film absorbs stains, making the teeth look dingy. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Two ways to fight it

Dental science has now found two effective ways to fight film. They are combined in a new-day tooth paste—Pepsodent—made to meet modern requirements.

Pepsodent CANADA
REG. IN
The New-Day Dentifrice

The scientific film combater, approved by modern authorities and now advised by leading dentists everywhere—to bring five desired effects. All druggists supply the large tubes.

FREE

to every home—a 10-Day Tube. Send the coupon. Watch how your teeth change in a week.

Each use of Pepsodent brings five effects which dentists now desire. It attacks the film. It keeps the teeth so highly polished that film cannot easily adhere.

It increases the salivary flow, which is Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That to digest the starch deposits which otherwise may form acid. It multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Thus Pepsodent is bringing to millions whiter, cleaner, safer teeth. Leading dentists everywhere are now urging its adoption.

Results are delightful

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

All the effects are delightful. All are now considered essential. See and feel them for awhile. Read the reasons for them in the book we send. Then decide for you and yours between the old ways and the new. Cut out the coupon now.

PRELACY ON RETURN

Bishop Boufflower Passed Through Here Monday

Bishop Boufflower of South Tokyo arrived on the Empress of Japan on Monday, en route to England.

Bishop Boufflower was formerly Bishop of Dorking, and became a missionary worker in Japan as a result of a great appeal which was made about fourteen years ago, when a world-wide movement was inaugurated to get funds for foreign missions. At a now historic service in St. Paul's, London, the bishop went forward and offered to give himself for foreign service, instead of money, which offer was accepted. On returning to England another bishopric will be preferred to Bishop Boufflower.

While in Japan he was associated with Rev. C. H. Cassillis Kennedy, who spent twenty-one years there, and Rev. C. H. Short, with eighteen years' experience in that country.

The WEATHER

Do You Like Spearmint?

Then try Spearmint Chiclets.

Then you'll know just how fine Spearmint can be—when it's Adams Spearmint; imprisoned in a crisp, white candy-coating; dainty in size and shape; the famous Chiclets you've known for years—with the added inducement of Spearmint flavor.

All Chiclets are "Really Delightful"—good for nerves and teeth and digestion. It's just a matter of choosing your favorite flavor—the new Spearmint, tingling Peppermint, or luscious Tutti-Frutti.

Sold in cardboard packets by most stores—ten Chiclets for 5c.

—an Adams product, particularly prepared

City, Suburban and Country Real Estate—Houses, Lots and Acreage for Sale and Wanted

BARGAIN IN A REAL HOME.
EXCEPTIONALLY WELL-BUILT, NEW
AND MODERN RESIDENCE.
Consisting of
3 VERY FINE AND LARGE ROOMS
AND ONE ACRE OF LAND.

SITUATED in one of the best parts of the city. Large living room and dining room, also large reception hall, are finished with the very best fir paneling and beam ceilings. 3 very fine open fireplaces, built-in buffet, bookcases, etc. 2 bedrooms, all finished in white, several bedrooms have built-in dressers, mirrors and other useful and convenient fixtures. Also large clothes closets. There is a fine bathroom and 2 toilets separate. First-class floors throughout. Sleeping porch, electric furnace, and sanitary laundry. Electric fixtures and plumbing are first-class. Land consists of ONE ACRE, most of which is in lawn with large tennis court. There is also considerable flower garden, trees and shrubbery, large garage, chicken house and runs. This property is well situated, facing south and near park, and having a good view of the water. It is on a paved road only 5 minutes' walk to car and 3 miles from city. House alone (exclusive of grounds) cost over \$15,000.

OUR PRICE ONLY \$10,000, TERMS.

CORY & POWER,
1214 Douglas Street.
Two Phones: 1460 and 6354.

ACREAGE.

KEATING'S DISTRICT—15 acres good land, partly cleared, excellent for strawberries and small fruits; house and barn. Property is well situated and has fine view. This is the cheapest acreage buy in the district. Price only—\$5500.

SOUTH SAANICH—15 acres, all good land, just off paved road, about 10 miles from town, all fenced, land has been cleared and is ready for planting. Price only—\$3500.

SOUTH SAANICH—Good land in 20-acre blocks or more to suit buyer, frontage on paved road, 1/2 mile from E. C. Electric Station, some of the best land in the area, plenty of water obtainable. Price per acre—\$160.

A. W. JONES, LIMITED,
1007 Broad Street. Phone 158.

7-ROOM CALIFORNIA BUNGALOW of a different type from the ordinary bungalow on our books. Situated on a boulevard, facing south, with a full lot of 1/2 acre. The house is built on a double garage. Artistic veranda leads to a pretty veranda, off which is a very pretty and large living room with large open fireplace, nicely designed built-in seats and a large dining room. One of the nearest dining rooms in bungalow architecture, with very high and selected wood paneling, excellent buffet, bright and cozy kitchen with built-in seats and a large dining room. Two bedrooms with separate bathrooms, in which is medicine chest, insert mirror, lavatory, etc.; large covered sleeping porch complete upstairs. All rooms, both up and down, have edge-grained, hand-polished floors. Full basement and furnace complete. This remarkably cheap bargain is for the owner in very easy terms. Price \$15,000.

K. RATING—If you can beat this for value I am very much mistaken. It is to my knowledge the cheapest piece of land offered. Consisting of ten acres first-class strawberry land, situated on the main road in this district. There are 10 acres planted in strawberries, 27 bearing average fruit trees, 4 acres in grain, 2 acres in pastures. Chicken house for 100 birds. Natural drainage of this land. Transportation passes the door several times daily. Terms \$5,000.

12% ACRE, situated six miles from the city, just off a paved road and all fenced. Five acres under oats, the balance used as pasture. Stream runs through the property the year round. There is a considerable flower garden, trees and shrubbery, large garage, chicken house and runs. This property is well situated, facing south and near park, and having a good view of the water. It is on a paved road only 5 minutes' walk to car and 3 miles from city. House alone (exclusive of grounds) cost over \$15,000.

OUR PRICE ONLY \$10,000, TERMS.

Duke Will Unveil Late Queen's Statue

His Excellency the Duke of Devonshire, Governor-General of Canada, and the Duchess of Devonshire, will arrive in Victoria from Vancouver to-morrow morning on the regular night boat. They will be welcomed at the wharf at 8.30 o'clock by Chief Justice Macdonald, administrator during the illness of Lieutenant-Governor Nichol, Premier Oliver, H. J. S. Muskett, secretary to the Lieutenant-Governor, Mayor Porter and some aldermen. Although the visit is wholly informal, Mayor Porter has prepared an address which he plans to present to the Duke some time during the day.

The Duke and Duchess will at once go from the wharf to Government House for breakfast. His first duty will be at 11 o'clock when he will unveil the Queen Victoria statue in front of the Parliament Buildings. For this Belleville Street will be closed to traffic, so that spectators may take part in the ceremony. For invited guests a space around the statue has been roped off. There will be no sea view as the whole function will be over quickly.

Battalion Tablets Also. Just as the Duke starts to unveil the statue, an address will be presented to him by the Royal Society of St. George. Premier Oliver will introduce the Duke, who before he draws the flag, will reply to both. He will then unveil the tablets to the men of the 88th Battalion and the 56th Gordon Highlanders on the walls of the rotunda under the main dome of the Parliament Buildings.

The Governor-General will be escorted by Mounted Police. There will be a guard of honor at the Parliament Buildings. The guard of honor on its way from Work Point Barracks will be met on Douglas Street by the 16th Battalion Band under Professor Loy Turner. Boy Scouts, naval boys and naval cadets will be lined up in front of the Parliament Buildings.

Motorcade to Nanaimo. To-morrow afternoon the Governor-General will visit the University Military School at Mount Tolmie. Afterwards he will receive deputations from returned soldiers' organizations at Government House at 4 o'clock. At 5 o'clock he will inspect Boy Scouts at Government House.

While the Duke is busy with these engagements, the Duchess will open the Y. W. C. A. bazaar at the Art Galleries. After this she will go to the meeting of the Provincial Executive of the I. O. D. E. In the evening there will be the official dinner at Government House, followed by a reception. Wednesday will be given over to golf and motoring. Early Thursday morning the Duke and Duchess will motor over the Malahat to Nanaimo, from where they will go to Vancouver by the regular boat.

DEGREES PRACTICE IN DOING BUSINESS

Over \$30,000,000 of Insurance Paying No Fees, Chamber Is Told

Over \$30,000,000 of premium income went out of Canada in 1920 for which the Dominion Government did not receive a dollar, D. W. Campbell informed the directors of the Chamber of Commerce to-day when speaking in support of the Victoria District Fire Insurance Agents Association asking that the Chamber support the proposed tax on unlicensed insurance companies operating in Canada.

It was explained that the Federal Minister of Finance proposed to tax these companies 15 per cent, and a resolution by the local insurance agents' association condemned the inconsistency of the Canadian Manufacturers' Association in trying to promote the patronage of home concerns while they were responsible, it was alleged, for sending out a large amount in insurance to unlicensed concerns in Canada. The text of the resolution has already been published in The Times.

Officers and solicitors of companies outside of Canada made a practice of coming to this country regularly for the purpose of picking up all the business they could, and no return of the business was ever made to the Canadian Government, said Mr. Campbell.

STREET REGULATIONS ARE BEING REVISED

Revision and consolidation of civic traffic and street regulations is progressing now under the direction of City Solicitor H. S. Pringle. Mr. Pringle plans to abolish a number of by-laws which merely duplicate provincial regulations. As by-laws and regulations will have to undergo radical change when the rule of the road is altered, Mr. Pringle may recommend, however, that the work of revising and consolidating these regulations be postponed until the change is made at the end of the year.

MUSICAL PROGRAMME AT FIRST PRESBYTERIAN

The following programme, for which tickets have been selling very well, will be given in the Schoolroom of the First Presbyterian Church to-morrow evening commencing promptly at 8 o'clock: Pianoforte Solo—Caprice Etude

INDIAN LIFE AS SEEN BY VICTORIAN

Mr. and Mrs. Harold Beall Back From Hyderabad

The best thinkers in India to-day see the sense of the British policy and are supporting it, realizing that while Home Rule will come some day, it is too soon to even think of putting it into effect, according to Harold G. Beall, who has just returned from India after spending five and a half years in Hyderabad as physical instructor for the Government and the Y. M. C. A.

Mr. Beall was accompanied by Mrs. Beall, formerly Miss Elizabeth Scowcroft, daughter of William Scowcroft, City Assessor. They arrived in Victoria aboard the Empress of Asia last night with their two children, who were born in India.

Left Here For India. The International Committee of the Y. M. C. A. New York, is the head of the foreign work of the Association, and Mr. Beall was called by them to take charge of this branch at Hyderabad, where he was the first physical instructor at the new Y. M. C. A. building, serving four years in that capacity before his appointment to India.

The Association's work in India is largely on the community basis and is co-operated in by the Government. The population of Hyderabad, the largest feudatory state, is about 13,000,000. An arrangement was made between the Y. M. C. A. and the Government whereby Mr. Beall devoted a considerable part of his time to the supervision of physical work in the public and high schools of the state, for which the Government gave a grant to the Association.

Not So Much Seditious. Speaking of conditions in India, Mr. Beall said that there was not so much seditious as some people would have the public believe. There was a feeling, however, that there should be Home Rule and the East Indians, who are a patient people, realize that this will come in due course. The people to-day are falling away in their support of the non-co-operative movement which included a boycott of British institutions. Gandhi's policies are slowly losing ground with the more serious thinkers.

Indians cannot understand a European man or woman remaining single, says Mr. Beall. India marriage is looked upon as the natural state and some of their quaint and simple questions directed to those enjoying single bliss are at times rather embarrassing. There are too many propagandists trying to induce the Western people to follow their particular line of thought, particularly those opposed to British Rule in India, says Mr. Beall. As a matter of fact the Montague-Chelmsford Reform Bill is a long step toward giving the people of India self government but the people themselves have not grasped the value of the legislation, and therefore do not appreciate it. This Bill gives considerable powers to Provincial Legislative bodies elected by the people. As soon as the British Government is convinced that the Indian people are capable of handling their own government, the reins of power will be handed over to them, Mr. Beall said.

Great Resources. There is a great future for India in the development of her illimitable natural resources, and it only requires patience to develop India. The people are slow moving, and in dealing with them one must be patient. Kipling very aptly describes the Indian people.

Mr. and Mrs. Beall are glad to be back in Victoria and they are busy unpacking after their long journey, much of their time being taken up in receiving the good wishes of their friends who are anxious to have them back in their midst on furlough.

MUCH CITY CUT WOOD BEING STOLEN FROM BEACHES

Pilfering Nightly Reducing Profits of Municipal Aid Scheme

John Simpson, 157 Olive Street, was charged in the city police court to-day with stealing some blocks of wood, now the property of James P. Cameron, but formerly belonging to the city, under the municipal wood cutting scheme. It was stated in court that owing to the numerous cases of theft that had occurred that the profit from the wood cutting scheme had been very seriously eaten into. Beachcombers and others had nightly visited the city wood piles, it was learned, and taken away whole barrow loads.

In this case Mr. Cameron and Mr. Day gave evidence, the former alleging that he had seen the accused and another party loading their barrow with some six or eight pieces of wood from his pile.

The accused stated in his own defence that the load of four sacks of drift wood which he had on a barrow had slipped and he was trying to wedge the load up with blocks, getting the blocks from the Cameron pile. He had not done so with any felonious intent. The accused was fined \$5 and cautioned against the practice in future. Mr. Day's evidence was to the effect that he had been employed on the city wood cutting scheme, but did not know the Cameron pile in question.

"Marry my daughter!" cried the angry merchant. "I should hope not, sir! Be off with you, sir! Go to the devil, sir!" The young man was not in the least upset by these definite instructions. "Very well," he replied, "can I take any message for you?"

The remains of the late William Davidson, of Hongkong, who died on the S. S. Empress of Asia on April 12, while en route from the Orient, were laid at rest in Ross Bay Cemetery to-day. The cortege left the B. C. Funeral Chapel at 10.45, proceeding to Christ Church Cathedral, where service was conducted by the Rev. H. C. Moyle, of Hongkong, a fellow-passenger of the late Mr. Davidson. There was a large attendance at the service and a wealth of floral tributes. The pallbearers were: Capt. J. T. Borge, M. Griffin, D. M. Graham, J. W. Weaver, D. Neilson and A. M. Simpson.

Mrs. Charlotte Randolph, wife of J. J. Randolph, died this morning at the residence of her daughter, 429 David Avenue, Seattle. The remains are expected at the B. C. Funeral Chapel pending the arrival of Mr. Randolph, who is now en route from Calgary. Funeral announcements will be made later.

Beautifully Knit from the Softest Wool

FINER children's stockings than these cannot be made. For there is no finer wool than the soft, silky Australian lambs' wool from which we spin the yarn.

And there is no better process than ours of knitting that lovely yarn into hosiery.

Little Darling Stockings are made especially for babies and kiddies up to seven. Soft and warm, silken heel and toe. Not a fear of chafing—knit closely, but affording perfect ventilation. You will admit you never saw anything finer in infants' clothes.

Little Daisy Stockings are made in sizes up to twelve years. They have extra strength in heel and toe. There is unusual wear, as you know, in these famous stockings. And there is the protecting warmth that romping, tireless legs must have.

A wide range of colors—dainty shades, and dark—or fast black. Ask for Little Darling or Little Daisy where you buy your children's clothes. Write to us if they cannot supply you.

Chipman Holton Knitting Co., Limited, Hamilton, Ont.

"LITTLE DARLING" "LITTLE DAISY" HOSIERY FOR INFANTS AND CHILDREN

MUCH CITY CUT WOOD BEING STOLEN FROM BEACHES

LINIMENTS WON'T RELIEVE PAIN BETWEEN THE EYES

Pain between the eyes is not rheumatism or neuralgia. Many folks think so—it is due to Catarrh, plain, ordinary Catarrh and needs attention right now. Catarrh is the name of a wonderful invention that is daily fixing up chronic cases of weak throat, bronchitis and catarrh. Every breath through the Inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs. It can't fail to help, because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. There is no sufferer from a grippy cold or any Winter ill that won't find benefit in Catarrh, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months, and costs \$1.00. Small size 50c, sample size 25c, all storekeepers or the Catarrh Co., Montreal.

The remains of the late William Davidson, of Hongkong, who died on the S. S. Empress of Asia on April 12, while en route from the Orient, were laid at rest in Ross Bay Cemetery to-day. THIS WOMAN'S RECOVERY

Shows Remarkable Restorative Power of Lydia E. Pinkham's Vegetable Compound

Cheley, Ont.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go upstairs without stopping to rest half way up the steps. I lifted two doctors, but they did me no good. I saw your medicine advertised in the newspapers and thought I would give it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, the mother of two children, and do all my housework, milk eight cows, and do a hired man's work and enjoy the best of health. I also found Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends who are in need of medicine, and you may print this letter if you wish.—Mrs. Henry J. J. No. 4, Cheley, Ontario.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

WHAT CANADA CAN DO!

Worthless Land Turned Into \$250,000,000

What the development of Canada's oil field means can be realized from the following news items:

"President K. R. Kingsbury, in the annual report of the Standard Oil Company of California for 1920, says that the outstanding features of the past year were the discovery and development of two new oil fields and a great increase in the company's production of crude oil. The company's development of the Elk Hills property on which the first well was completed in February resulted in a daily average production in December of 37,438 barrels.

"In Southern California the company's wild cat efforts resulted in the discovery of Huntington Beach field. It is believed this field will prove a large producer as one of the wells had an initial daily production estimated at 6,000 barrels.

"These two new fields developed during the year were surveyed by engineers and were valued by them at over \$250,000,000. A few years ago these districts were not considered as having oil possibilities."

And the following, from The New York Times of April 7:
"A quarter section of Government land in the Elk Hills District of Kern County, California, was sold at a United States Land Office auction at Visalia to E. L. Doheny, of Los Angeles, president of the Mexican Petroleum Company, for a bonus of \$456,800. In addition to the bonus Doheny must pay the Government \$1.00 an acre and 25 per cent. royalty on the oil produced from the land. Three other quarter sections were sold at prices almost as high as Doheny paid."

A few years ago the Elk Hills district was looked upon as valueless. With less than one year's work this worthless land was sold for \$1,817,000 a section.

There are millions of acres of oil lands in Canada which, with development, should duplicate the history of these two California fields.

We ask you: Is this not a business that is entitled to your hearty support? The Fort Norman field is proved by the Imperial gusher.

It is estimated that there will be thirty rigs drilling at Fort Norman this season. Windy Point, Pine Point, Pouce Coupe and Peace River will all be drilling.

THE CANADIAN U. S. OIL AND REFINING CORPORATION has five leases in these fields, and will drill at Fort Norman this Summer.

Treasury stock, for the purpose of carrying on this development, is offered at par, \$1.00 per share.

THE CANADIAN U. S. OIL AND REFINING CORPORATION is a producing, well managed, dividend paying company, with 58 producing wells on 14,000 acres of proven lands in Texas, Oklahoma and Louisiana.

This production insures the safety of your investment and guarantees regular quarterly dividends.

This is a business proposition. Think what was accomplished in two new fields in less than a year, and then consider what the same result would mean to Canada.

Cut off the coupon and mail for complete information about our plans for Canadian development.

GOVERNOR-GENERAL

IN TERMINAL CITY

He and Duchess Arrived This Forenoon

Vancouver, April 18.—Paying their official farewell visit to Vancouver, the Governor-General and the Duchess of Devonshire arrived from the East this forenoon and were formally welcomed on behalf of the city by Mayor R. H. Gale.

Following inspection of the Royal Northwest Mounted Police, the Duke's party entered motor cars and were taken for a drive about the city. At noon the Duke and Duchess were guests of honor at luncheon tendered by the Canadian Club and the Women's Canadian Club.

HORSESHOERS' UNION HAS MONEY TANGLE

New York, April 18.—An investigation has been started to determine whether or not a part of the \$90,000 said to be missing from the treasury of the Horseshoers' Union was used for the defense fund of Robert P. Brindley, convicted leader who is now serving a prison term for extortion, according to union members.

VETERANS ASKED TO APPLY FOR MEDALS

Ottawa, April 18.—The Department of Militia and Defence asks that all members of the Canadian Expeditionary Force who proceeded overseas, complete and forward to the Director of Records, Militia Headquarters, Ottawa, post free, application cards which may be obtained from the nearest postoffice, in order to receive the war medals to which they are entitled.

PASSENGERS OF S.S. SCANDINAVIAN FINALLY RELEASED

St. John, N. B., April 18.—A party of 121 passengers, stewards and stewardesses who had been detained in quarantine at Partridge Island since their arrival on the steamship Scandinavian three weeks ago because of a number of cases of smallpox on board, were released yesterday. There are still two cases of the disease in quarantine. A third passenger died of the disease and was buried on the island.

LONGSHOREMEN OF MONTREAL AGREE TO CUT IN WAGES

Montreal, April 18.—The Local Association of Longshoremen of Montreal has agreed to a five per cent. cut in wages on last year for day work and a corresponding increase for night work.

**SALVATION ARMY IS
SALVAGING MANHOOD**
Stage Self Denial Week to Save Men and Material

The paramount factor in reconstruction, say all those in authority, is economy. From every quarter of the nation are given serious study, comes the cry to conserve resources, to waste nothing, to develop every producing possibility. There is perhaps no single agency more economically important than the Salvation Army, according to some of the Empire's greatest statesmen. It is the salvage depot of manhood, womanhood, citizenship, as well as of material waste which it turns to the profit of the community. No other organization is more ardently engaged in the all important business of reclaiming men and women from being liabilities to a positive assets. And a moment's study of the question will show how much more important is the salvaging of men and women, for the man whom the Army has reclaimed becomes an active economic agent in material things as well as in person. It is for this double work of saving men and saving material that the Salvation Army asks the public once a year to share its endeavors to the extent of contributing what it can for its manifold activities. The annual week is named Self-Denial Week, and this year it is from April 13 to May 7. During that week Army workers and volunteer business men's teams will try to canvass every person in the city and give him or her an opportunity to contribute.

**HERE FROM ITALY
ON BUSINESS TOUR**
Mais Pezzi Spends Short Time in Victoria

On tour of the United States and Canada, Mais Pezzi, of Alessandria, in Piedmont, Italy, was a week-end visitor at the Dominion Hotel. Mr. Pezzi stated to The Times that the great question which is occupying the Italian authorities at the present time is that of the fuel supply of the country. The prospects for liquid fuel, however are reported by the geologists to be excellent, and there is little doubt that the discovery will be very beneficial to the industrial progress of Italy. Hitherto coal has been imported from Britain, France, and other western European countries. Mr. Pezzi has been engaged in making a geological survey, spending the greater part of the last twelve months in California, where the Italian colony is large. He is giving special attention to the lumber industry, owing to the increasing imports of soft woods into Italy. The Pacific seaboard, one of the factors which has made for the establishment of the headquarters of the Mediterranean in Milan, the industrial centre of Northern Italy. Mr. Pezzi, who has now proceeded East, says that there is a growing desire for increased trade with Canada on the part of Italian manufacturers.

PROGRAMME FOR RECITAL TO-MORROW

Fine List of Works at Metropolitan Church
(By George J. Dyke)

One of the most interesting musical events of the season is the organ recital to-morrow evening in the Metropolitan Church. It is all the more interesting as it will afford the general public the opportunity of attending and enjoying one of the most beautiful of all instruments, the pipe organ, consisting of works written for that instrument. Particularly too, is it an event of much circumstance inasmuch as the public is to hear one of the great critics for works of its kind, namely the modern forte concertos in B flat minor, op. 23, for orchestra, the orchestral parts being played on the organ by one of the best western organists, Frederick Chubb, of Vancouver, while the pianoforte part will be in that artist's hands, Gertrude Huntley Green. I understand the recital has been

striking his spear upon the rock by command of Satan causes flames to spring up and about her.
(c) "Forest Maiden," Coleclidge Taylor. One of this composer's most individual works, and calls for artistic treatment. Samuel Coleclidge Taylor, of African descent (his father was a native Sierra Leone, his mother English), was born in London, August, 1875, and died there 1912. He had a wonderfully short career, occupying many important positions and making two concert tours of the United States in 1904-05, conducting his own works. His choral writings are known to all choral organizations. (d) "Moto Perpetuo," is a clever composition by one of the best known organists in the Midlands of England. Much is expected of Bernard Johnson, 7, "Marche Slave," and 8, Pianoforte concerto, in B flat minor, are by Piotr (Peter) Hytish Tohaikovsky, the greatest exponent of his own native land, Russia, characteristic, strong and violent in contrasting moods, and of the richest modern cast. The march, written in sympathy with the Servians, embodies Slavonic melodies, beginning in mournful vein, it gradually gives way to brighter melodies and finally is heard the stirring Russian National Hymn with triumphant effect. The concert is an elaborate work, and is one of the best known and most effective modern writings of its class. It is distinctly popular, and was selected by the composer himself when he visited London in 1889 and America in 1891. The concerto is in three movements, the first is highly developed, but the themes are readily perceived. The second and third movements are equally enjoyable, and abound in characteristic movements, the whole work finishing in a soul-stirring climax. It demands the greatest exactitudes from the player, whilst the orchestral part (for which it is originally written) are portrayed in the rich realms of tone color by the organ.

**VICE-PRESIDENT
COLEMAN VISITS**
Will Be Here For Ten Days, En Route to Alaska

With a view to make a visit to Alaska, D. C. Coleman, of Winnipeg, Western Vice-President of the Canadian Pacific Railway, arrived in the city yesterday afternoon, and will remain here for ten days, leaving on the Princess Mary on April 27 for the North.

Mr. Coleman expects a busy tourist season to Alaska this Summer, and for that reason, he told The Times he desired to make a personal tour.

The prospects for the wheat crop on the prairies depend largely on the North.

A formal arbitration agreement between the New Westminster school board and the teachers has now been signed, and the way is clear to complete the arbitration board, which will probably be done to-day.

The school board has held a special meeting to ratify the agreement, which has been prepared by W. J. Whiteside, K. C., solicitor for the

**FAMOUS PREACHER WAS
HERE FIFTY YEARS AGO**

Just fifty years ago Dr. William Morley Punshon, the famous English nonconformist divine, preached in Victoria during the period he spent on this continent. It was in the old Pandora Avenue Methodist Church that Dr. Punshon delivered his sermon, which is remembered by a few of the oldest residents of the city.

Mr. Punshon was born in Doncaster, Yorkshire, in May, 1824, and was educated at the Wesleyan College, Richmond. He received his first appointment at Marden, Kent, and soon became famous as a preacher.

States, and he was five times president of the Canadian Conference. Returning to England in 1873, he was elected president of the Conference in 1874, and in 1875 one of the missionary secretaries. He published several volumes of sermons and a book of verse entitled "Sabbath Chimes."

THE LAST STRAW
Mr. Punshon was exasperated with the telephone. Ten times that morning he had tried to get a number, and each time something had prevented him from speaking. At last he got through.

"Halloa!" he said. "Is Mr. X. there?" "Yes," replied a voice. "Do you want to speak to him?" That was the last straw. Back came the reply in icy tones: "Oh, no! I merely rang him up to hand him a cigarette."
